

**PRESS RELEASE**  
**FOR IMMEDIATE RELEASE**  
**MONDAY, MARCH 30, 2020**

## **COVID-19 Update**

**LAREDO, Texas**—The City of Laredo and Webb County have confirmed two (2) new cases of COVID-19 in Laredo.

Person 36 is a female and is a case of community transmission through close contact to another known positive person. The person is quarantined at home and is in stable condition.

Person 37 is a male. This case is still currently under investigation.

The City of Laredo Health Department is reminding the public that it is conducting contact investigation on persons who have tested positive to determine possible exposure to others. If the health department has not contacted you there is no need to take any action at this time. However, if someone is sick they need to stay home. In households with a positive person, there should only be one dedicated caregiver. Other family members must stay apart and practice good hygiene and social distancing. The positive person should be in a dedicated room and must wear a mask and not gather with other family members. The caregiver should also wear a mask when providing care. This is extremely important as evidence points to strong clustering among positive persons. Stay home if you are sick and call your doctor. Do not go to the office, call your doctor first. If it is an emergency, call 9-1-1.

As of **5:00 p.m. on March 30**, a total of 267 persons have been tested, 127 of those tests have resulted negative, 37 have resulted positive, 103 are pending, 5 have recovered, 12 remain in the hospital, and 1 has passed.

In order to safeguard legally-protected information, the City of Laredo is not publically releasing personal or identifiable information regarding any cases as it relates to COVID-19 testing, results or monitoring.
