Ms. Rosario C. Cabello  
Interim Co-City Manager, City of Laredo  
1110 Houston Street  
Laredo, Texas 78040

Dear Ms. Cabello,

SUBJECT: Consolidated Annual Performance and Evaluation Report (CAPER)  
Program year (FY) 2018  
Period from 10/01/2018 through 09/30/2019

Thank you for the submission of your Consolidated Annual Performance and Evaluation Report as required at 24 CFR 91.520 of the Consolidated Plan requirements. The purpose for submitting an annual report is to present what your community has accomplished with grant funds and other leveraged resources during the program year and to allow the Department, local officials, and the public to arrive at conclusions concerning the City’s overall performance.

Under the Housing and Community Development Act of 1974, as amended, and the National Affordable Housing Act of 1990, HUD is required to review and make a formal determination at least once a year that each grant recipient is in compliance with the statutes and has the capacity to continue implementing and administering the programs for which grants have been provided. The purpose of this letter is to report the results of our review.

Periodically we may question some projects/activities and subsequently request the submission of supporting documentation or additional clarification. However, it is the responsibility of the City to properly document project files to ensure activities meet relevant program rules and requirements, and that project documentation supports such determinations.

The City shall have 30 days from the date of this report to review and comment on its contents. After the 30-day period, HUD will make the report complete, with any revisions readily available to interested citizens and groups. Action items, if any, cited in this report would require a follow-up submission within the 30-day timeframe, unless otherwise noted in the Action Item.

COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)

We acknowledge the City of Laredo’s efforts in managing their activities. In our analysis and review of your CAPER, we focused on your overall performance from planning to the implementation of locally identified activities. In addition, we reviewed the management of
program funds in delivering benefits to the intended low and moderate-income beneficiaries in a timely, efficient, and effective manner.

New CDBG funding made available during the program year was $3,729,949. An indicator of the City's ability to carry out its CDBG activities in a timely manner as required in 24 CFR 570.902(a) (1) (i), is that sixty days prior to the end of the current program year, the amount of entitlement grant funds available but undisbursed by the U.S. Treasury is not more than 1.5 times the entitlement grant amount for its current program year. Accordingly, a timeliness ratio test was conducted on August 2, 2019 that showed the City's timeliness ratio was 1.23, which was within the recommended ratio. We congratulate the City for the continuous timely delivery of services to the citizens of Laredo and encourage the City's community development staff to continue to monitor, on a monthly basis, the City's progress in meeting new targeted fund balances and goals across its CDBG projects.

Based on the CAPER narrative and the IDIS PR09, Program Income Details report, the City received CDBG Program Income during the CAPER reporting period; the total amount received was $19,037.04 with draws during the same reporting period of $448,187. We strongly encourage the City to continue to explore other eligible housing activities that will increase use of these funds. With ongoing increasing lack of affordable housing in Laredo, HUD continues to encourage the City to expend its Program Income funds in an expedient manner to address the needs of the community. Our office will continue to monitor how quickly the City expends these funds on eligible activities and compliance with remitting interest earned on RL fund balances. As per 2 CFR Part 200.305(b)(9), effective December 26, 2014, payment for interest earned on Revolving Loan Fund cash balances are no longer paid to HUD and should be remitted annually to the Department of Health and Human Services. The final guidance in 2 CFR Part 200.305(b)(9) also states that Interest amounts up to $500 per year may be retained by the non-Federal entity for administrative expense. Please ensure the recordkeeping requirements are being met to properly document interest earned and administrative expenses.

A review of the City's 2018 CDBG Financial Summary (PR26) Report and the LOCCS Reconciliation Worksheet remains underway. There were no inconsistencies identified with the CDBG Financial Summary Report during the review.

Grant-based Accounting implements two distinct compliance tests under 24 CFR Part 570.200(g) for planning and administration funds: (1) The existing program year obligation test (570.200(g)(2)) (2) An origin year expenditure test (570.200(g)(1)). The grantee must pass both tests to be in compliance. The CAPER showed that 15.65 percent of CDBG funds were obligated for planning and administration and 15.91 percent was expended for the origin year. The City is in compliance with both tests.

The CAPER also showed that 4.74 percent was obligated for public service activities. This percentage is within the regulatory cap of 15 percent for public services.

The City utilized 90.39 percent of funds for activities benefiting low and moderate-income persons, well over the 70% statutory requirement. We congratulate the City for its performance and dedication to serving low and moderate-income persons.
HOME INVESTMENT PARTNERSHIPS PROGRAM (HOME)

HUD published an Interim Final Rule on December 2, 2016 implementing a grant-specific method of determining compliance with the statutory 24-month deadline for committing HOME funds. The interim rule was effective on January 3, 2017. See attached addendum “HOME Grant-Based Accounting Interim Rule Summary” for information about the changes to HOME Program Commitment Requirement Interim Final Rule.

In program year 2018, the City of Laredo’s HOME program was allocated $1,178,458. Program funds were utilized to carry out activities including new housing construction for first-time homebuyers; homebuyer assistance; tenant based rental assistance and the provision of rental housing. The activities undertaken during this reporting period were consistent with the affordable housing strategy identified in the City’s 5-Year Consolidated Plan and its 2018 Annual Action Plan.

The HOME “Dashboard” report shows the City’s cumulative use of HOME funds has produced 1931 units distributed 97 percent to eligible first-time homebuyers and 3 percent for rental assistance activities. The Department acknowledges the progress made by the City in meeting the affordable housing needs of low-to-moderate income persons.

A SNAPSHOT of the City’s HOME program performance, as of September 30, 2019, indicates that in comparison to other Participating Jurisdictions (PJs) with rental activities in the State, the City ranked 8 out of 39. This SNAPSHOT report shows the performance of a HOME PJ by category, as follows:

<table>
<thead>
<tr>
<th>City’s Performance</th>
<th>State Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>Funds Committed</td>
<td>95.58%</td>
</tr>
<tr>
<td>Funds Disbursed</td>

<td>Completed CHDO Disbursements to All CHDO Reservations</td>
<td>87.63%</td>
</tr>
<tr>
<td>Completed Rental Disbursements to All Rental Commitments</td>
<td>100%</td>
</tr>
</tbody>
</table>

The City is commended for exceeding the average performance levels in the key performance categories listed.

As a reminder, the HOME final rule at 24 CFR 92.502(d)(1) requires PJs to enter project completion information into IDIS within 120 days of making a final draw for a project (completion data includes beneficiary data, including income and racial composition of housing occupants). The City’s HOME Open Activities report dated November 30, 2019 was reviewed and found no activities noted in a fully drawn status in excess of 120 days.

As indicated in the CAPER narrative, due to certain “distress factors” the City’s HOME Match obligation has been fully waived.

Based on the CAPER narrative and review of IDIS HOME PR09, the City received Program Income in the amount of $359,662 and disbursed $113,518 during the FY2018 reporting
period. Participating Jurisdictions must expend program income in accordance with the HOME Program requirements found at 24 CFR 92.503 – Program Income, Repayments, and Recaptured Funds prior to drawing entitlement funds from IDIS.

We continue to strongly encourage the City to explore other eligible housing activities that will increase use of these funds. With increasing lack of affordable housing in Laredo, the City is encouraged to expend its Program Income funds in an expedient manner to address the needs of the community. HOME reports cited in this CAPER review are available for review at: http://www.hud.gov/offices/cpd/affordablehousing/reports/.

**EMERGENCY SOLUTIONS GRANT PROGRAM (ESG)**

In FY2018 the City of Laredo received ESG program funds in the total amount of $306,204. The allocation of funds is subject to the Interim Rule, dated December 5, 2011, which amends the regulations at 24 CFR Part 576 that will govern, as revised, the Emergency Solutions Grants program.

ESG funds must be fully expended within twenty-four months to avoid de-obligation. To determine compliance with this requirement we assess whether previous year funds were expended by the deadline date of September 30, 2019. In FY 2017 the City received an ESG grant allocation of $309,407. A review of IDIS PR91 report evidenced that FY2017 funds in the amount of $309,407 were fully expended prior to the deadline date.

Activities undertaken by the City during this reporting period were found to be consistent with the homeless assistance strategy identified in the City’s 2015-2019 Consolidated Plan and its FY2018 Action Plan (AP). Based on our review of the City’s submission, its FY2018 program funds were utilized for the following activities: Street Outreach, Emergency Shelter, Rapid Re-Housing, Homeless Prevention, HMIS and Administration.

Funds used for street outreach and emergency shelter activities are capped at 60 percent. This amount may not exceed the greater of: 1) 60 percent of the City’s overall grant for FY2018; or the amount of FY2010 ESG funds committed for homeless assistance activities. The IDIS PR91 Report displayed 45.68% to be expended for street outreach and emergency shelter activities at which is within the required cap.

Funds that may be spent on administrative activities are 7.5 percent of the recipient’s ESG grant. Employee compensation and other overhead costs directly related to carrying out eligible activities are eligible costs of those activities and not subject to the expenditure limit. The IDIS PR91 report for FY2018 displayed a total of $16,490 to be expended on administrative costs at 5.39% which is within the required cap.

We wish to thank the City of Laredo and its dedicated staff for the continued effort of providing shelter and other services to its homeless clients and those at risk of becoming homeless.
Other Action(s)

Citizen Participation - For performance reporting the citizen participation requirements outlined in the Consolidated Plan rules at 24 CFR 91.105(d)(1), requires the City to provide citizens a period of not less than 15 days to receive comments on the performance report that is to be submitted to HUD. The City has complied with this requirement by publishing the CAPER for comment beginning December 2, 2019 through December 16, 2019. Based on the CAPER narrative no verbal or in-writing public comments were received.

Self-Evaluation - The self-evaluation and subsequent action assure us that the City is indeed reviewing program delivery and impact and assessing how it might meet the priority needs and specific objectives in the low-to-moderate income communities more effectively. It is evident that, through the development of the CAPER, the City has assessed its progress in meeting the goals of its 5-Year Consolidated Plan (CP).

Monitoring - We acknowledge the City’s continued method and frequency of monitoring its program activities. The CAPER indicates that the City of Laredo’s monitoring process involves ongoing communication and evaluation of subrecipient and City departments administering CDBG funded activities to ensure compliance with the executed agreements, HUD regulations and other Federal, State or local codes and statutes. City’s Community Development staff conducted annual self-monitoring reviews on all City Departments that oversaw CDBG funded projects and annual on-site monitoring reviews of subrecipients of Emergency Shelter Grant (ESG) and Home Investment Partnership (HOME) Program funds. On-site monitors were conducted to determine correct project eligibility and ensure projects are being carried out in a timely manner. Community Development staff also ensured that all Labor Standard requirements were met, and appropriate compliance documentation was obtained for all construction projects. In addition, staff conducted project file reviews to make sure project files contained appropriate support documentation of all actions performed.

IDIS - As you know, IDIS is the reporting system HUD has to measure the results and demonstrate the effectiveness of its programs to our elected officials and the public. Accurate accomplishment and performance measurement data are critically important to ensure those results are not undercounted or misrepresented. The information contained in the IDIS and its reports provide an ongoing opportunity to review performance. In reviewing IDIS reports during the course of this review, it is noted that project activities have been updated.

We would like to note that on November 27, 2012, the City was informed of IDIS Release Version 11.4 that implemented several changes for CDBG Grantees.

As a result of these new changes, the City must pay close attention to IDIS PR59 Report titled, “CDBG Activities at Risk Dashboard”. This report will identify CDBG activities that are at risk/flagged and require a remediation plan to remove the flag. The report will also identify those activities that are close to becoming at risk/flagged thus providing the City an opportunity to fix the deficiencies before that activity moves into the at risk/flagged category. Based on the review of the PR59 Report dated February 3, 2020, the City has 1 activity flagged as Pending At-Risk (#3249). We request that the City continue to monitor this report to ensure these CDBG activities are progressing and funds are drawn in a timely manner. Overall, City staff is doing a very good job in monitoring this report and keeping activities from becoming at risk to a minimum.
On May 9, 2014 All CPD Formula Grantees were notified of system and regulatory changes to eliminate First-in-First-out (FIFO) accounting in the Integrated Disbursement and Information System (IDIS). The changes will affect the administration of the following block grant programs: Community Development Block Grants; HOME Investment Partnerships; Emergency Solutions Grants; and Housing Opportunities for Persons with AIDS. Beginning with the FY2015 allocations, IDIS will specifically tie activity funding/commitments to activity draws and to a specific grant or grants. HUD continues to develop and release resources and tools to assist grantees throughout the transition. These resources and tools are made available and can be accessed through the HUD exchange website at www.hudexchange.info.

**FAIR HOUSING AND EQUAL OPPORTUNITY (FHEO)**

A primary goal of the Department is to reduce housing discrimination, affirmatively further fair housing through CPD programs and promote diverse, inclusive communities. To that end, we encourage your community to take all measures necessary to ensure compliance with the Fair Housing requirements associated with these funds. A copy of your Consolidated Annual Performance and Evaluation Report (CAPER) was provided to the Office of Fair Housing and Equal Opportunity for review. Comments from that review are as follows – no response is required:

1. The Grantee is reminded that the activities proposed during the planning year demonstrate progress in addressing the identified needs of people with disabilities.

2. The Grantee is reminded that people with disabilities and female-headed households should also benefit from the Grantee’s direct benefit activities in relative proportion to their representation in the Grantee’s population.

If you have any questions regarding this review, please contact C. Cortez at (210) 475-6882 and at cjs.cortez@hud.gov.

**CONCLUSION**

In conclusion, as a result of our analysis, we have determined that the City of Laredo’s overall progress is satisfactory. This determination is based upon the information available to this office and does not give automatic approval to specific projects identified, as this can only be done through on-site review or specific requests for determinations of eligibility submitted to our office.

We look forward to our continued partnerships and working with you and your staff. We wish the City of Laredo continued success in meeting its housing and community development needs during the next program year. If you have any questions or comments with respect to this letter, please contact Valicia Cisneros, Senior CPD Representative at (210) 475-6848 or by e-mail at valicia.a.cisneros@hud.gov.

SUBJECT  
Public Hearing and Introductory Ordinance amending Ordinance 2006-O-288  
Subsection (k) Section 20-37 of the City of Laredo Code of Ordinance and authorizing the City Manager to execute an Interlocal Cooperation Contract with the Texas Department of Public Safety. The amendment lowers the payment reimbursement fee from $30.00 dollars to ten $10.00 dollars.

PREVIOUS COUNCIL ACTION  
On November 20, 2006, Ordinance 2006-O-288 authorized an Interlocal Cooperation Contract with the Texas Department of Public Safety adopting Chapter 706 Transportation Code "Denial of Renewal of License for Failure to Appear" and authorizing the collection of a $30.00 administrative fee per case reported as per section 706.006 Transportation Code.

BACKGROUND  
Chapter 706, Section 706.002 (a), Transportation Code, allows the City of Laredo, a political subdivision, to contract with the Texas Department of Public Safety (TDPS) to provide information necessary to deny renewal of the Texas drivers license of a person who fails to appear for a complaint or citation or fails to pay or satisfy a judgment ordering payment of a fine and cost in the manner ordered by the court in a matter involving any offense that the court has jurisdiction of under Chapter 4, Code of Criminal Procedure.

Chapter 706.006 of the Texas Transportation Code is being amended to lower the administrative fee of ten ($10.00) Dollars. The fee change requires a new interlocal cooperation contract with the Texas Department of Public Safety to reflect the new fee amounts to be collected.

The change in the administrative fee has no effect on city revenue. From the initial fee of $30.00 per case, $20.00 was remitted to the state, $6.00 was the Omnibase fee and $4.00 was retained by the City. The new fee of $10.00 eliminates the state's $20.00 fee; therefore, no effect on City revenue.

Interlocal Cooperation Contract
Failure to Appear (FTA) Program

State of Texas
County of _______________________

I. PARTIES AND AUTHORITY

This Interlocal Cooperation Contract (Contract) is entered into between the Department of Public
Safety of the State of Texas (DPS), an agency of the State of Texas and the ______________________
Court of the [City or County] of ______________________ (Court), a political subdivision of the
State of Texas, referred to collectively in this Contract as the Parties, under the authority granted in

II. BACKGROUND

As permitted under Tex. Transp. Code § 706.008, DPS contracts with a private vendor (Vendor) to
provide and establish an automated FTA system that accurately stores information regarding violators
subject to the provisions of Tex. Transp. Code Chapter 706. DPS uses the FTA system to properly deny
renewal of a driver license to a person who is the subject of an FTA system entry.

III. PURPOSE

This Contract applies to each FTA Report submitted by the Court to DPS or its Vendor and accepted by
DPS or its Vendor.

Court will supply information to DPS, through its Vendor, that is necessary to deny renewal of the
driver license of a person who fails to appear for a complaint or citation or fails to pay or satisfy a
judgment ordering payment of a fine and costs in the manner ordered by the Court in a matter involving
any offense that Court has jurisdiction of under Tex. Code Crim. Prac. Chapter 4.

IV. PERIOD OF PERFORMANCE

This Contract will be effective on the date of execution and will automatically renew on the anniversary
date of execution for up to three additional years unless terminated earlier.

V. COURT RESPONSIBILITIES

A. Written warnings

A peace officer authorized to issue citations within the jurisdiction of the Court must issue a
written warning to each person to whom the officer issues a citation for a traffic law
violation. This warning must be provided in addition to any other warnings required by law.
The warning must state in substance that if the person fails to appear in court for the
prosecution of the offense or if the person fails to pay or satisfy a judgment ordering the
payment of a fine and cost in the manner ordered by the Court, the person may be denied
 renewal of the person’s driver license. The written warning may be printed on the citation or on a separate instrument.

B.  FTA Report

An FTA Report is a notice sent by Court requesting a person be denied renewal in accordance with this Contract. The Court may submit an FTA Report to Vendor if a person fails to appear or fails to pay or satisfy a judgment as required by law. There is no requirement that a criminal warrant be issued in response to the person’s failure to appear. The Court must make reasonable efforts to ensure that all FTA Reports are accurate, complete, and non-duplicative. The FTA Report must include the following information:

1. the jurisdiction in which the alleged offense occurred;
2. the name of the court submitting the report;
3. the name, date of birth, and Texas driver license number of the person who failed to appear or failed to pay or satisfy a judgment;
4. the date of the alleged violation;
5. a brief description of the alleged violation;
6. a statement that the person failed to appear or failed to pay or satisfy a judgment as required by law;
7. the date that the person failed to appear or failed to pay or satisfy a judgment; and
8. any other information required by DPS.

C. Clearance Reports

The Court that files the FTA Report has a continuing obligation to review the FTA Report and promptly submit appropriate additional information or reports to the Vendor. The clearance report must identify the person, state whether or not a fee was required, and advise DPS to lift the denial of renewal and state the grounds for the action. All clearance reports must be submitted immediately, but no later than two business days, from the time and date that the Court receives appropriate payment or other information that satisfies the person’s obligation to that Court.

To the extent that a Court uses the FTA system by submitting an FTA Report, the Court must collect the statutorily required $10.00 reimbursement fee. If the person is acquitted of the underlying offense for which the original FTA Report was filed, the Court will not require payment of the reimbursement fee.

Court must submit a clearance report for the following circumstances:

1. the perfection of an appeal of the case for which the warrant of arrest was issued or judgment arose;
2. the dismissal of the charge for which the warrant of arrest was issued or judgment arose;
3. the posting of a bond or the giving of other security to reinstate the charge for which the warrant was issued;
4. the payment or discharge of the fine and cost owed on an outstanding judgment of the Court; or
5. other suitable arrangement to pay the fine and cost within the Court’s discretion.

DPS will not continue to deny renewal of the person’s driver license after receiving notice from the Court that the FTA Report was submitted in error or has been destroyed in accordance with the Court’s record retention policy.

D. Quarterly Reports and Audits

Court must submit quarterly reports to DPS in a format established by DPS.

Court is subject to audit and inspection at any time during normal business hours and at a mutually agreed upon location by the state auditor, DPS, and any other department or agency, responsible for determining that the Parties have complied with the applicable laws. Court must provide all reasonable facilities and assistance for the safe and convenient performance of any audit or inspection.

Court must correct any non-conforming transactions performed by the Court, at its own cost, until acceptable to DPS.

Court must keep all records and documents regarding this Contract for the term of this Contract and for seven years after the termination of this Contract.

E. Accounting Procedures

Court must keep separate, accurate, and complete records of the funds collected and disbursed and must deposit the funds in the appropriate municipal or county treasury. Court may deposit such fees in an interest-bearing account and retain the interest earned on such accounts for the Court.

Court will allocate $6.00 of each $10.00 reimbursement fee received for payment to the Vendor and $4.00 for credit to the general fund of the municipal or county treasury.

F. Non-Waiver of Fees

Court will not waive the $10.00 reimbursement fee for any person that has been submitted on an FTA Report, unless the person is deemed to be indigent, or the person is acquitted of the charges for which the person failed to appear.

Failure to comply with this section will result in: (i) termination of this Contract for cause; and (ii) the removal of all outstanding entries of the Court in the FTA Report, resulting in the lifting of any denied driver license renewal status from DPS.
G. Litigation Notice

The Court must make a good-faith attempt to immediately notify DPS in the event that the Court becomes aware of litigation in which this Contract or Tex. Transp. Code Chapter 706 is subject to constitutional, statutory, or common-law challenge, or is struck down by judicial decision.

VI. PAYMENTS TO VENDOR

Court must pay the Vendor a fee of $6.00 per person for each violation which has been reported to the Vendor and for which the Court has subsequently collected the statutorily required $10.00 reimbursement fee. In the event that the person has been acquitted of the underlying charge or is indigent, no payment will be made to the Vendor or required of the Court.

Court agrees that payment will be made to the Vendor no later than the last day of the month following the close of the calendar quarter in which the payment was received by the Court.

DPS will not pay Vendor for any fees collected by Court.

VII. GENERAL TERMS AND CONDITIONS

A. Compliance with Law. The Court understands and agrees that it will comply with all local, state, and federal laws in the performance of this Contract, including administrative rules adopted by DPS.

B. Contract Amendment. DPS and Court may amend this Contract through a written amendment signed by an authorized signatory on behalf of the respective party.

C. Notice. The respective party will send the other party notice as noted in this section.

D. Termination. Either party may terminate this Contract with 30 days' written notice. DPS may also terminate this Contract for cause if Court doesn't comply with Section V.F., Non-Waiver of Fees. After termination, the Court has a continuing obligation to report dispositions and collect fees for all violators in the FTA system at the time of termination. Failure to comply with the continuing obligation to report will result in the removal of all
outstanding entries of the Court in the FTA Report, resulting in the lifting of any denied driver license renewal status from DPS.

**STAFF RECOMMENDATION**
Planning and Zoning staff recommends approval of the initial zoning for the annexation.

Planning and Zoning staff recommends approval of the annexation.

**M-1 (Light Manufacturing District):**
The purpose of the M-1 Light Manufacturing District is to encourage the development of manufacturing and wholesale business establishments which are clean, quiet, and free of hazardous or objectionable elements such as noise, odor, dust, smoke or glare. Research activities are encouraged. This district is further designed to act as a transitional use between heavy industrial uses and other less intense and residential uses.

**Is the initial zoning contrary to the established land use pattern?**
No. The land to the north, east and west is zoned AG (Agricultural District). The land to the south is unzoned.

**Would the initial zoning create an isolated zoning district unrelated to surrounding districts?**
Yes. The land to the north, east, and west is zoned AG. This tract is part of a larger tract to the north which was presented for a zone change to the Planning and Zoning Commission on February 20, 2020 from AG to M-1. The land to the south is unzoned.

**Will the initial zoning adversely influence living conditions in the neighborhood?**
No. The land uses to the south are a mix of residential and commercial uses.

Are there substantial reasons why the property cannot be used in accordance with existing zoning?

TRACT 1
ELVIRA H. MORENO TRACT

WHEREAS, the City of Laredo is a home rule municipality and a political subdivision of the State of Texas; and

WHEREAS, Chapter 43.003 of the Texas Local Government Code specifically sets out the legal requirements for the annexation of land adjoining the city limits of a home-rule municipality, such as the City of Laredo, Texas; and

WHEREAS, Section 1.04 of the Charter of the City of Laredo requires the execution of an annexation agreement between the City of Laredo and the landowner of the territory being annexed; and

WHEREAS, Section 43.056 of the Texas Local Government Code, requires the preparation of a service plan describing the provision of municipal services to the territory being annexed, prior to implementation of annexation proceedings and related public hearings.

NOW, THEREFORE, FOR AND IN CONSIDERATION, of the sum of Seven-Hundred Fifty and No/100 Dollars ($750.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY OF LAREDO, a home-rule municipality, and Elvira H. Moreno being the parties to this ANNEXATION AGREEMENT AND SERVICE PLAN, do hereby mutually acknowledge, consent, and agree to the following terms, conditions and service plan for annexation by the City of Laredo of 0.84 acres of land, more or less, belonging to Elvira H. Moreno.

SERVICE PLAN

A petition for annexation from City of Laredo was received for property designated as "Tract 1 (Elvira H. Moreno Tract)" described by metes and bounds in Exhibit "A" of this Annexation Agreement and Service Plan and made a part hereof for all purposes. This Service Plan was prepared in accordance with the requirements of Section 43.056 of the Texas Local Government Code and was available for review by the public at hearings duly held on March 2, 2020. Public notice of the hearings was provided on February 19, 2020 and February 21, 2020, not more than twenty or less than ten days before the hearings as provided in Section 43.0561 of the Texas Local Government Code.
Section 1. Services to be provided on the effective date of annexation

1. **Police Protection:** Police protection shall be provided to the tract immediately upon the effective date of annexation. Police protection shall include traffic control enforcement, crime prevention activities, police patrol, crime investigation, and emergency response.

2. **Fire protection and Emergency Medical Services:** First response fire and EMS services will be provided to the area from Fire Station No. 13, which is located approximately 5.72 miles from the proposed site. Fire services include protection, prevention, and emergency medical response.

3. **Solid Waste Collection:** The collection and disposal of solid waste will be extended to the area within thirty days from the effective date of annexation on the same basis as other residential and institutional customers. Institutional, commercial, and industrial generators of solid waste may use city services or contract with private haulers. Disposal of all solid waste will be at the municipal sanitary landfill. Fees charged customers within the tract will be the same as all similarly classified customers.

4a. **Operation and Maintenance of Public Water Services**

   **RESIDENTIAL ANNEXATION FEE FOR WATER:**
   - Lots under 10,000 sqft: $1,039.46/lot (135 gpcd X 3.7 person/lot X $2.081/gal)
   - Lots over 10,000 sqft: $1,560.60/lot

   **COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR WATER:**
   - Less than 1.0 acres: $1,040.40/lot
   - Lots 1 acre and Fraction: $1,560.60/acre

   This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Water service will be to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Water for fire protection services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

4b. **Operation and Maintenance of Public Wastewater Services**

   **RESIDENTIAL ANNEXATION FEE FOR SANITARY SEWER:**
   - Lots under 10,000 sqft: $1,770.82/lot (100 gpcd X 3.7 person/lot X $4.786/gal)
   - Lots over 10,000 sqft: $2,080.80/lot
COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR SANITARY SEWER:
Less than 5.0 acres $1,292.22/acre (15 people/ac. X 18 gallons/person/day X $4.786 gallon=$1,292.22)
More than 5.01 acres $1,560.60/acre

This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Wastewater service will be provided to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Wastewater services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

5. Maintenance of roads and streets: Public roads and streets will be maintained on the effective date of the annexation in the same manner as all roads and streets within the city limits. All thoroughfare rights-of-way shall be dedicated to comply with the Long Range Thoroughfare requirements of the City of Laredo's Comprehensive Plan. Road maintenance consists of repair of paving, maintenance of traffic lights, controls and signals, and will be provided immediately upon annexation. Street lighting is required of all new development and will be provided at petitioner's expense.

6. Operation and Maintenance of parks, playgrounds and swimming pools: No public parks, playgrounds, or swimming pools are presently located within the tract.

7. Operation and Maintenance of other public facilities: No public facilities, public buildings, or other service facilities are presently located within the tract. All facilities required by the development shall be provided at the expense of the petitioner, its successors and assigns, or jointly in cooperation with the city at such time as warranted by the development.

The Service Plan does not contemplate the creation of another political subdivision, nor will it require the funding of capital improvements by the petitioner to which petitioner has not agreed prior to the institution of proceedings, or which will be charged in any manner inconsistent with Chapter 395 of the Texas Local Government Code. The Service Plan does not propose services in the area in a manner that would have the effect of reducing by more than a negligible amount the level of fire and police protection and emergency medical services provided within the corporate boundaries of the municipality before annexation.

If the annexed area had a lower level of services, infrastructure, and infrastructure maintenance than the level of services, infrastructure, and infrastructure maintenance provided within the corporate boundaries of the municipality before annexation, a service
plan must provide the annexed area with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the municipality with topography, land use, and population density similar to those reasonably contemplated or projected in the area.

Section 2. Capital Improvements
The tract does not require the construction or acquisition of capital improvements by the City. Petitioner agrees to provide all roadways, drainage, and all public improvements at such time as the property is platted.

Section 3. Land Use
When the annexation results in the abutment of residential uses with M-1 (Light Manufacturing District) as defined in the Laredo Land Development Code, a 100 ft. buffer yard between the different land uses shall be required, and the buffer yard shall be maintained by the property owner. This Section 3. Land Use shall survive the expiration of this agreement.

The Service Plan is valid for a period of ten years, and all services within the area shall be provided in accordance with the Plan. Should an ordinance pertaining to reserve areas or impact fees be adopted by the City Council, the ordinance shall supersede any provisions established herein.

STAFF RECOMMENDATION
Planning and Zoning staff recommends approval of the initial zoning for the annexation.

Planning and Zoning staff recommends approval of the annexation.

M-1 (Light Manufacturing District):
The purpose of the M-1 Light Manufacturing District is to encourage the development of manufacturing and wholesale business establishments which are clean, quiet, and free of hazardous or objectionable elements such as noise, odor, dust, smoke or glare. Research activities are encouraged. This district is further designed to act as a transitional use between heavy industrial uses and other less intense and residential uses.

Is the initial zoning contrary to the established land use pattern?
No. This tract is part of a parcel that was considered for a zone change from AG to M-1 pursuant to ZC-07-2020 with subsequent ordinance (2020-O-005) approved on February 3, 2020. The land to the south is unzoned. North and south of the property is vacant undeveloped land. The tracts to the northeast and west are used as tractor trailer yards.

Would the initial zoning create an isolated zoning district unrelated to surrounding districts?
No. This tract is part of a parcel that was considered for a zone change from AG to M-1 pursuant to ZC-07-2020 with subsequent ordinance (2020-O-005) approved by the City Council on February 3, 2020. The land to the south is unzoned.

Will the initial zoning adversely influence living conditions in the neighborhood?
No. There are no residential neighborhoods in the area that would be negatively impacted with the proposed zoning.

Are there substantial reasons why the property cannot be used in accordance with existing zoning?

Public notice of the hearings was provided on February 19, 2020 and February 21, 2020, not more than twenty or less than ten days before the hearings as provided in Section 43.0561 of the Texas Local Government Code.

3. **Solid Waste Collection:** The collection and disposal of solid waste will be extended to the area within thirty days from the effective date of annexation on the same basis as other residential and institutional customers. Institutional, commercial, and industrial generators of solid waste may use city services or contract with private haulers. Disposal of all solid waste will be at the municipal sanitary landfill. Fees charged customers within the tract will be the same as all similarly classified customers.

4a. **Operation and Maintenance of Public Water Services**

   **RESIDENTIAL ANNEXATION FEE FOR WATER:**
   
   Lots under 10,000 sqft $1,039.46/lot (135 gpcd X 3.7 person/lot X $2.081/gal)
   Lots over 10,000 sqft $1,560.60/lot

   **COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR WATER:**
   
   Less than 1.0 acres $1,040.40/lot
   Lots 1 acre and Fraction: $1,560.60/acre

   This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Water service will be to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Water for fire protection services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

4b. **Operation and Maintenance of Public Wastewater Services:**

   **RESIDENTIAL ANNEXATION FEE FOR SANITARY SEWER:**
   
   Lots under 10,000 sqft $1,770.82/lot (100 gpcd X 3.7 person/lot X $4.786/gal)

EXHIBIT "B"
COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR SANITARY SEWER:

Less than 5.0 acres $1,292.22/acre (15 people/ac. X 18 gallons/person/day X $4.786 gallon=$1,292.22)

More than 5.01 acres $1,560.60/acre

This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Wastewater service will be provided to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Wastewater services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

5. Maintenance of roads and streets: Public roads and streets will be maintained on the effective date of the annexation in the same manner as all roads and streets within the city limits. All thoroughfare rights-of-way shall be dedicated to comply with the Long Range Thoroughfare requirements of the City of Laredo's Comprehensive Plan. Road maintenance consists of repair of paving, maintenance of traffic lights, controls and signals, and will be provided immediately upon annexation. Street lighting is required of all new development and will be provided at petitioner's expense.

6. Operation and Maintenance of parks, playgrounds and swimming pools: No public parks, playgrounds, or swimming pools are presently located within the tract.

7. Operation and Maintenance of other public facilities: No public facilities, public buildings, or other service facilities are presently located within the tract. All facilities required by the development shall be provided at the expense of the petitioner, its successors and assigns, or jointly in cooperation with the city at such time as warranted by the development.

The Service Plan does not contemplate the creation of another political subdivision, nor will it require the funding of capital improvements by the petitioner to which petitioner has not agreed prior to the institution of proceedings, or which will be charged in any manner inconsistent with Chapter 395 of the Texas Local Government Code. The Service Plan does not propose services in the area in a manner that would have the effect of reducing by more than a negligible amount the level of fire and police protection and emergency medical services provided within the corporate boundaries of the municipality before annexation.

If the annexed area had a lower level of services, infrastructure, and infrastructure maintenance than the level of services, infrastructure, and infrastructure maintenance provided within the corporate boundaries of the municipality before annexation, a service
plan must provide the annexed area with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the municipality with topography, land use, and population density similar to those reasonably contemplated or projected in the area.

Section 2. Capital Improvements
The tract does not require the construction or acquisition of capital improvements by the City. Petitioner agrees to provide all roadways, drainage, and all public improvements at such time as the property is platted.

Section 3. Land Use
When the annexation results in the abutment of residential uses with M-1 (Light Manufacturing District) as defined in the Laredo Land Development Code, a 100 ft. buffer yard between the different land uses shall be required, and the buffer yard shall be maintained by the property owner. This Section 3. Land Use shall survive the expiration of this agreement.

The Service Plan is valid for a period of ten years, and all services within the area shall be provided in accordance with the Plan. Should an ordinance pertaining to reserve areas or impact fees be adopted by the City Council, the ordinance shall supersede any provisions established herein.

TRACT 3
BLANCA ESTELA RODRIGUEZ TRACT

WHEREAS, the City of Laredo is a home rule municipality and a political subdivision of the State of Texas; and

WHEREAS, Section 43.056 of the Texas Local Government Code, requires the preparation of a service plan describing the provision of municipal services to the territory being annexed, prior to implementation of annexation proceedings and related public hearings.

NOW, THEREFORE, FOR AND IN CONSIDERATION, of the sum of Seven-Hundred Fifty and No/100 Dollars ($750.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY OF LAREDO, a home-rule municipality, and Blanca Estela Rodriguez being the parties to this ANNEXATION AGREEMENT AND SERVICE PLAN, do hereby mutually acknowledge, consent, and agree to the following terms, conditions and service plan for annexation by the City of Laredo of 7.29 acres of land, more or less, belonging to Blanca Estela Rodriguez.

SERVICE PLAN

A petition for annexation from City of Laredo was received for property designated as "Tract 3 (Blanca Estela Rodriguez Tract)" described by metes and bounds in Exhibit "A" of this Annexation Agreement and Service Plan and made a part hereof for all purposes. This Service Plan was prepared in accordance with the requirements of Section 43.056 of the Texas Local Government Code and was available for review by the public at hearings duly held on March 2, 2020. Public notice of the hearings was provided on February 19, 2020 and February 21, 2020, not more than twenty or less than ten days before the hearings as provided in Section 43.0561 of the Texas Local Government Code.

EXHIBIT "B"
Section 1. Services to be provided on the effective date of annexation

1. **Police Protection:** Police protection shall be provided to the tract immediately upon the effective date of annexation. Police protection shall include traffic control enforcement, crime prevention activities, police patrol, crime investigation, and emergency response.

2. **Fire protection and Emergency Medical Services:** First response fire and EMS services will be provided to the area from Fire Station No. 13, which is located approximately 0.68 miles from the proposed site. Fire services include protection, prevention, and emergency medical response.

3. **Solid Waste Collection:** The collection and disposal of solid waste will be extended to the area within thirty days from the effective date of annexation on the same basis as other residential and institutional customers. Institutional, commercial, and industrial generators of solid waste may use city services or contract with private haulers. Disposal of all solid waste will be at the municipal sanitary landfill. Fees charged customers within the tract will be the same as all similarly classified customers.

4a. **Operation and Maintenance of Public Water Services**

   **RESIDENTIAL ANNEXATION FEE FOR WATER:**
   - Lots under 10,000 sqft: $1,039.46/lot (135 gpcd X 3.7 person/lot X $2.081/gal)
   - Lots over 10,000 sqft: $1,560.60/lot

   **COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR WATER:**
   - Less than 1.0 acres: $1,040.40/lot
   - Lots 1 acre and Fraction: $1,560.60/acre

   This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Water service will be to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Water for fire protection services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

4b. **Operation and Maintenance of Public Wastewater Services:**

   **RESIDENTIAL ANNEXATION FEE FOR SANITARY SEWER:**
   - Lots under 10,000 sqft: $1,770.82/lot (100 gpcd X 3.7 person/lot X $4.786/gal)
   - Lots over 10,000 sqft: $2,080.80/lot

EXHIBIT "B"
COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR SANITARY SEWER:
Less than 5.0 acres $1,292.22/acre (15 people/ac. X 18 gallons/person/day X $4.786 gallon=$1,292.22)
More than 5.01 acres $1,560.60/acre

This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Wastewater service will be provided to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Wastewater services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

5. Maintenance of roads and streets: Public roads and streets will be maintained on the effective date of the annexation in the same manner as all roads and streets within the city limits. All thoroughfare rights-of-way shall be dedicated to comply with the Long Range Thoroughfare requirements of the City of Laredo's Comprehensive Plan. Road maintenance consists of repair of paving, maintenance of traffic lights, controls and signals, and will be provided immediately upon annexation. Street lighting is required of all new development and will be provided at petitioner's expense.

6. Operation and Maintenance of parks, playgrounds and swimming pools: No public parks, playgrounds, or swimming pools are presently located within the tract.

7. Operation and Maintenance of other public facilities: No public facilities, public buildings, or other service facilities are presently located within the tract. All facilities required by the development shall be provided at the expense of the petitioner, its successors and assigns, or jointly in cooperation with the city at such time as warranted by the development.

The Service Plan does not contemplate the creation of another political subdivision, nor will it require the funding of capital improvements by the petitioner to which petitioner has not agreed prior to the institution of proceedings, or which will be charged in any manner inconsistent with Chapter 395 of the Texas Local Government Code. The Service Plan does not propose services in the area in a manner that would have the effect of reducing by more than a negligible amount the level of fire and police protection and emergency medical services provided within the corporate boundaries of the municipality before annexation.

If the annexed area had a lower level of services, infrastructure, and infrastructure maintenance than the level of services, infrastructure, and infrastructure maintenance provided within the corporate boundaries of the municipality before annexation, a service
plan must provide the annexed area with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the municipality with topography, land use, and population density similar to those reasonably contemplated or projected in the area.

Section 2. Capital Improvements
The tract does not require the construction or acquisition of capital improvements by the City. Petitioner agrees to provide all roadways, drainage, and all public improvements at such time as the property is platted.

Section 3. Land Use
When the annexation results in the abutment of residential uses with M-1 (Light Manufacturing District) as defined in the Laredo Land Development Code, a 100 ft. buffer yard between the different land uses shall be required, and the buffer yard shall be maintained by the property owner. This Section 3. Land Use shall survive the expiration of this agreement.

The Service Plan is valid for a period of ten years, and all services within the area shall be provided in accordance with the Plan. Should an ordinance pertaining to reserve areas or impact fees be adopted by the City Council, the ordinance shall supersede any provisions established herein.

THIS ANNEXATION AGREEMENT AND SERVICE PLAN WAS ENTERED INTO AND EXECUTED ON THIS ____ DAY OF ________________, 2020.

WHEREAS, the City of Laredo is a home rule municipality and a political subdivision of the State of Texas; and

WHEREAS, Chapter 43.003 of the Texas Local Government Code specifically sets out the legal requirements for the annexation of land adjoining the city limits of a home-rule municipality, such as the City of Laredo, Texas; and

WHEREAS, Section 1.04 of the Charter of the City of Laredo requires the execution of an annexation agreement between the City of Laredo and the landowner of the territory being annexed; and

WHEREAS, Section 43.056 of the Texas Local Government Code, requires the preparation of a service plan describing the provision of municipal services to the territory being annexed, prior to implementation of annexation proceedings and related public hearings.

NOW, THEREFORE, FOR AND IN CONSIDERATION, of the sum of Seven-Hundred Fifty and No/100 Dollars ($750.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY OF LAREDO, a home-rule municipality, and Gallus Properties being the parties to this ANNEXATION AGREEMENT AND SERVICE PLAN, do hereby mutually acknowledge, consent, and agree to the following terms, conditions and service plan for annexation by the City of Laredo of 1.45 acres of land, more or less, belonging to Gallus Properties.

SERVICE PLAN

A petition for annexation from City of Laredo was received for property designated as "Tract 4 (Gallus Properties Tract)" described by metes and bounds in Exhibit "A" of this Annexation Agreement and Service Plan and made a part hereof for all purposes. This Service Plan was prepared in accordance with the requirements of Section 43.056 of the Texas Local Government Code and was available for review by the public at hearings duly held on March 2, 2020. Public notice of the hearings was provided on February 19, 2020 and February 21, 2020, not more than twenty or less than ten days before the hearings as provided in Section 43.0561 of the Texas Local Government Code.
Section 1. Services to be provided on the effective date of annexation

1. Police Protection: Police protection shall be provided to the tract immediately upon the effective date of annexation. Police protection shall include traffic control enforcement, crime prevention activities, police patrol, crime investigation, and emergency response.

2. Fire protection and Emergency Medical Services: First response fire and EMS services will be provided to the area from Fire Station No. 13, which is located approximately 7.16 miles from the proposed site. Fire services include protection, prevention, and emergency medical response.

3. Solid Waste Collection: The collection and disposal of solid waste will be extended to the area within thirty days from the effective date of annexation on the same basis as other residential and institutional customers. Institutional, commercial, and industrial generators of solid waste may use city services or contract with private haulers. Disposal of all solid waste will be at the municipal sanitary landfill. Fees charged customers within the tract will be the same as all similarly classified customers.

4a. Operation and Maintenance of Public Water Services

RESIDENTIAL ANNEXATION FEE FOR WATER:
Lots under 10,000 sqft $1,039.46/lot (135 gpcd X 3.7 person/lot X $2.081/gal)
Lots over 10,000 sqft $1,560.60/lot

COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR WATER:
Less than 1.0 acres $1,040.40/lot
Lots 1 acre and Fraction: $1,560.60/acre

This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Water service will be to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Water for fire protection services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

4b. Operation and Maintenance of Public Wastewater Services:

RESIDENTIAL ANNEXATION FEE FOR SANITARY SEWER:
Lots under 10,000 sqft $1,770.82/lot (100 gpcd X 3.7 person/lot X $4.786/gal)
Lots over 10,000 sqft $2,080.80/lot
COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR SANITARY SEWER:
Less than 5.0 acres $1,292.22/acre (15 people/ac. X 18 gallons/person/day X $4.786 gallon = $1,292.22)
More than 5.01 acres $1,560.60/acre

This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Wastewater service will be provided to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Wastewater services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

5. Maintenance of roads and streets: Public roads and streets will be maintained on the effective date of the annexation in the same manner as all roads and streets within the city limits. All thoroughfare rights-of-way shall be dedicated to comply with the Long Range Thoroughfare requirements of the City of Laredo's Comprehensive Plan. Road maintenance consists of repair of paving, maintenance of traffic lights, controls and signals, and will be provided immediately upon annexation. Street lighting is required of all new development and will be provided at petitioner's expense.

6. Operation and Maintenance of parks, playgrounds and swimming pools: No public parks, playgrounds, or swimming pools are presently located within the tract.

7. Operation and Maintenance of other public facilities: No public facilities, public buildings, or other service facilities are presently located within the tract. All facilities required by the development shall be provided at the expense of the petitioner, its successors and assigns, or jointly in cooperation with the city at such time as warranted by the development.

The Service Plan does not contemplate the creation of another political subdivision, nor will it require the funding of capital improvements by the petitioner to which petitioner has not agreed prior to the institution of proceedings, or which will be charged in any manner inconsistent with Chapter 395 of the Texas Local Government Code. The Service Plan does not propose services in the area in a manner that would have the effect of reducing by more than a negligible amount the level of fire and police protection and emergency medical services provided within the corporate boundaries of the municipality before annexation.

If the annexed area had a lower level of services, infrastructure, and infrastructure maintenance than the level of services, infrastructure, and infrastructure maintenance provided within the corporate boundaries of the municipality before annexation, a service...
plan must provide the annexed area with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the municipality with topography, land use, and population density similar to those reasonably contemplated or projected in the area.

Section 2. Capital Improvements
The tract does not require the construction or acquisition of capital improvements by the City. Petitioner agrees to provide all roadways, drainage, and all public improvements at such time as the property is platted.

Section 3. Land Use
When the annexation results in the abutment of residential uses with M-1 (Light Manufacturing District) as defined in the Laredo Land Development Code, a 100 ft. buffer yard between the different land uses shall be required, and the buffer yard shall be maintained by the property owner. This Section 3. Land Use shall survive the expiration of this agreement.

The Service Plan is valid for a period of ten years, and all services within the area shall be provided in accordance with the Plan. Should an ordinance pertaining to reserve areas or impact fees be adopted by the City Council, the ordinance shall supersede any provisions established herein.

CUATRO VIENTOS SOUTH LTD TRACT

WHEREAS, the City of Laredo is a home rule municipality and a political subdivision of the State of Texas; and

WHEREAS, Chapter 43.003 of the Texas Local Government Code specifically sets out the legal requirements for the annexation of land adjoining the city limits of a home-rule municipality, such as the City of Laredo, Texas; and

WHEREAS, Cuatro Vientos South LTD, has filed a voluntary petition with the City of Laredo for the annexation of a 81.02 acre tract of land, said tract of land being more particularly described by metes and bounds on the attached Exhibit "A"; and

WHEREAS, Section 1.04 of the Charter of the City of Laredo requires the execution of an annexation agreement between the City of Laredo and the landowner of the territory being annexed; and

WHEREAS, Section 43.056 of the Texas Local Government Code, requires the preparation of a service plan describing the provision of municipal services to the territory being annexed, prior to implementation of annexation proceedings and related public hearings.

NOW, THEREFORE, FOR AND IN CONSIDERATION, of the sum of Seven-Hundred Fifty and No/100 Dollars ($750.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY OF LAREDO, a home-rule municipality, and Cuatro Vientos South LTD being the parties to this ANNEXATION AGREEMENT AND SERVICE PLAN, do hereby mutually acknowledge, consent, and agree to the following terms, conditions and service plan for annexation by the City of Laredo of 81.02 acres of land, more or less, belonging to Cuatro Vientos South LTD.

SERVICE PLAN

A petition for annexation from City of Laredo was received for property designated as "Tract 5 (Cuatro Vientos South LTD Tract)" described by metes and bounds in Exhibit "A" of this Annexation Agreement and Service Plan and made a part hereof for all purposes. This Service Plan was prepared in accordance with the requirements of Section 43.056 of the Texas Local Government Code and was available for review by the public at hearings duly held on March 2, 2020. Public notice of the hearings was provided on February 19, 2020 and February 21, 2020, not more than twenty or less than ten days before the hearings as provided in Section 43.0561 of the Texas Local Government Code.

EXHIBIT "B"
Section 1. Services to be provided on the effective date of annexation

1. Police Protection: Police protection shall be provided to the tract immediately upon the effective date of annexation. Police protection shall include traffic control enforcement, crime prevention activities, police patrol, crime investigation, and emergency response.

2. Fire protection and Emergency Medical Services: First response fire and EMS services will be provided to the area from Fire Station No. 11, which is located approximately 2.54 miles from the proposed site. Fire services include protection, prevention, and emergency medical response.

3. Solid Waste Collection: The collection and disposal of solid waste will be extended to the area within thirty days from the effective date of annexation on the same basis as other residential and institutional customers. Institutional, commercial, and industrial generators of solid waste may use city services or contract with private haulers. Disposal of all solid waste will be at the municipal sanitary landfill. Fees charged customers within the tract will be the same as all similarly classified customers.

4a. Operation and Maintenance of Public Water Services

RESIDENTIAL ANNEXATION FEE FOR WATER:
Lots under 10,000 sqft $1,039.46/lot (135 gpcd X 3.7 person/lot X $2.081/gal)
Lots over 10,000 sqft $1,560.60/lot

COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR WATER:
Less than 1.0 acres $1,040.40/lot
Lots 1 acre and Fraction: $1,560.60/acre

This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Water service will be to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Water for fire protection services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

4b. Operation and Maintenance of Public Wastewater Services:

RESIDENTIAL ANNEXATION FEE FOR SANITARY SEWER:
Lots under 10,000 sqft $1,770.82/lot (100 gpcd X 3.7 person/lot X $4.786/gal)
Lots over 10,000 sqft $2,080.80/lot
COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR SANITARY SEWER:
Less than 5.0 acres $1,292.22/acre (15 people/ac. X 18 gallons/person/day X $4.786 gallon=$1,292.22)
More than 5.01 acres $1,560.60/acre

This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Wastewater service will be provided to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Wastewater services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

5. Maintenance of roads and streets: Public roads and streets will be maintained on the effective date of the annexation in the same manner as all roads and streets within the city limits. All thoroughfare rights-of-way shall be dedicated to comply with the Long Range Thoroughfare requirements of the City of Laredo’s Comprehensive Plan. Road maintenance consists of repair of paving, maintenance of traffic lights, controls and signals, and will be provided immediately upon annexation. Street lighting is required of all new development and will be provided at petitioner's expense.

6. Operation and Maintenance of parks, playgrounds and swimming pools: No public parks, playgrounds, or swimming pools are presently located within the tract.

7. Operation and Maintenance of other public facilities: No public facilities, public buildings, or other service facilities are presently located within the tract. All facilities required by the development shall be provided at the expense of the petitioner, its successors and assigns, or jointly in cooperation with the city at such time as warranted by the development.

The Service Plan does not contemplate the creation of another political subdivision, nor will it require the funding of capital improvements by the petitioner to which petitioner has not agreed prior to the institution of proceedings, or which will be charged in any manner inconsistent with Chapter 395 of the Texas Local Government Code. The Service Plan does not propose services in the area in a manner that would have the effect of reducing by more than a negligible amount the level of fire and police protection and emergency medical services provided within the corporate boundaries of the municipality before annexation.

If the annexed area had a lower level of services, infrastructure, and infrastructure maintenance than the level of services, infrastructure, and infrastructure maintenance provided within the corporate boundaries of the municipality before annexation, a service
plan must provide the annexed area with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the municipality with topography, land use, and population density similar to those reasonably contemplated or projected in the area.

Section 2. Capital Improvements
The tract does not require the construction or acquisition of capital improvements by the City. Petitioner agrees to provide all roadways, drainage, and all public improvements at such time as the property is platted.

Section 3. Land Use
When the annexation results in the abutment of residential uses with M-1 (Light Manufacturing District) as defined in the Laredo Land Development Code, a 100 ft. buffer yard between the different land uses shall be required, and the buffer yard shall be maintained by the property owner. This Section 3. Land Use shall survive the expiration of this agreement.

The Service Plan is valid for a period of ten years, and all services within the area shall be provided in accordance with the Plan. Should an ordinance pertaining to reserve areas or impact fees be adopted by the City Council, the ordinance shall supersede any provisions established herein.

CITY OF LAREDO
ANNEXATION AGREEMENT AND SERVICE PLAN
TRACT 6
FM 1472 INVESTMENTS #1 TRACT

WHEREAS, the City of Laredo is a home rule municipality and a political subdivision of the State of Texas; and

WHEREAS, Chapter 43.003 of the Texas Local Government Code specifically sets out the legal requirements for the annexation of land adjoining the city limits of a home-rule municipality, such as the City of Laredo, Texas; and

WHEREAS, FM 1472 Investments, Inc., has filed a voluntary petition with the City of Laredo for the annexation of a 100.00 acre tract of land, said tract of land being more particularly described by metes and bounds on the attached Exhibit "A"; and

WHEREAS, Section 1.04 of the Charter of the City of Laredo requires the execution of an annexation agreement between the City of Laredo and the landowner of the territory being annexed; and

WHEREAS, Section 43.056 of the Texas Local Government Code, requires the preparation of a service plan describing the provision of municipal services to the territory being annexed, prior to implementation of annexation proceedings and related public hearings.

NOW, THEREFORE, FOR AND IN CONSIDERATION, of the sum of Seven-Hundred Fifty and No/100 Dollars ($750.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY OF LAREDO, a home-rule municipality, and FM 1472 Investments, Inc. being the parties to this ANNEXATION AGREEMENT AND SERVICE PLAN, do hereby mutually acknowledge, consent, and agree to the following terms, conditions and service plan for annexation by the City of Laredo of 100.00 acres of land, more or less, belonging to FM 1472 Investments, Inc.

SERVICE PLAN

A petition for annexation from City of Laredo was received for property designated as "Tract 6 (FM 1472 Investments #1 Tract)" described by metes and bounds in Exhibit "A" of this Annexation Agreement and Service Plan and made a part hereof for all purposes. This Service Plan was prepared in accordance with the requirements of Section 43.056 of the Texas Local Government Code and was available for review by the public at hearings duly held on March 2, 2020. Public notice of the hearings was provided on February 19, 2020 and February 21, 2020, not more than twenty or less than ten days before the hearings as provided in Section 43.0561 of the Texas Local Government Code.

EXHIBIT "B"
Section 1. Services to be provided on the effective date of annexation

1. **Police Protection**: Police protection shall be provided to the tract immediately upon the effective date of annexation. Police protection shall include traffic control enforcement, crime prevention activities, police patrol, crime investigation, and emergency response.

2. **Fire protection and Emergency Medical Services**: First response fire and EMS services will be provided to the area from Fire Station No. 9, which is located approximately 5.39 miles from the proposed site. Fire services include protection, prevention, and emergency medical response.

3. **Solid Waste Collection**: The collection and disposal of solid waste will be extended to the area within thirty days from the effective date of annexation on the same basis as other residential and institutional customers. Institutional, commercial, and industrial generators of solid waste may use city services or contract with private haulers. Disposal of all solid waste will be at the municipal sanitary landfill. Fees charged customers within the tract will be the same as all similarly classified customers.

4a. **Operation and Maintenance of Public Water Services**

   **RESIDENTIAL ANNEXATION FEE FOR WATER:**
   
   | Lots under 10,000 sqft | $1,039.46/lot (135 gpcd X 3.7 person/lot X $2.081/gal) |
   | Lots over 10,000 sqft | $1,560.60/lot |

   **COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR WATER:**
   
   | Less than 1.0 acres | $1,040.40/lot |
   | Lots 1 acre and Fraction | $1,560.60/acre |

   This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Water service will be to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Water for fire protection services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

4b. **Operation and Maintenance of Public Wastewater Services**

   **RESIDENTIAL ANNEXATION FEE FOR SANITARY SEWER:**
   
   | Lots under 10,000 sqft | $1,770.82/lot (100 gpcd X 3.7 person/lot X $4.786/gal) |
   | Lots over 10,000 sqft | $2,080.80/lot |

   EXHIBIT "B"
COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR SANITARY SEWER:
Less than 5.0 acres  $1,292.22/acre (15 people/ac. X 18 gallons/person/day X $4.786 gallon=$1,292.22)
More than 5.01 acres  $1,560.60/acre

This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Wastewater service will be provided to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Wastewater services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

5. Maintenance of roads and streets: Public roads and streets will be maintained on the effective date of the annexation in the same manner as all roads and streets within the city limits. All thoroughfare rights-of-way shall be dedicated to comply with the Long Range Thoroughfare requirements of the City of Laredo's Comprehensive Plan. Road maintenance consists of repair of paving, maintenance of traffic lights, controls and signals, and will be provided immediately upon annexation. Street lighting is required of all new development and will be provided at petitioner's expense.

6. Operation and Maintenance of parks, playgrounds and swimming pools: No public parks, playgrounds, or swimming pools are presently located within the tract.

7. Operation and Maintenance of other public facilities: No public facilities, public buildings, or other service facilities are presently located within the tract. All facilities required by the development shall be provided at the expense of the petitioner, its successors and assigns, or jointly in cooperation with the city at such time as warranted by the development.

The Service Plan does not contemplate the creation of another political subdivision, nor will it require the funding of capital improvements by the petitioner to which petitioner has not agreed prior to the institution of proceedings, or which will be charged in any manner inconsistent with Chapter 395 of the Texas Local Government Code. The Service Plan does not propose services in the area in a manner that would have the effect of reducing by more than a negligible amount the level of fire and police protection and emergency medical services provided within the corporate boundaries of the municipality before annexation.

If the annexed area had a lower level of services, infrastructure, and infrastructure maintenance than the level of services, infrastructure, and infrastructure maintenance provided within the corporate boundaries of the municipality before annexation, a service
plan must provide the annexed area with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the municipality with topography, land use, and population density similar to those reasonably contemplated or projected in the area.

Section 2. Capital Improvements
The tract does not require the construction or acquisition of capital improvements by the City. Petitioner agrees to provide all roadways, drainage, and all public improvements at such time as the property is platted.

Section 3. Land Use
When the annexation results in the abutment of residential uses with M-1 (Light Manufacturing District) as defined in the Laredo Land Development Code, a 100 ft. buffer yard between the different land uses shall be required, and the buffer yard shall be maintained by the property owner. This Section 3. Land Use shall survive the expiration of this agreement.

The Service Plan is valid for a period of ten years, and all services within the area shall be provided in accordance with the Plan. Should an ordinance pertaining to reserve areas or impact fees be adopted by the City Council, the ordinance shall supersede any provisions established herein.

SUBJECT  
Public Hearing and Introductory Ordinance altering and extending the boundary limits of the City of Laredo by annexing additional territory of 15.63 acres, more or less, located north of Vidal Cantu Rd. and west of FM 1472/Mines Rd., providing for the effective date of the ordinance, authorizing the City Manager to execute a contract adopting a service plan for the annexed territory, and establishing the initial zoning of M-1 (Light Manufacturing District).

PREVIOUS COUNCIL ACTION  
On January 21, 2020, the City Council directed staff to draft the Annexation Agreements and Service Plans for the voluntary annexation requests, referred to the Planning and Zoning Commission, and further authorized the City Manager to enter into Water Supply, Sanitary Sewer Service and Controlled Development Contracts with the owners of the eligible proposed annexation tracts.

BACKGROUND  
Texas Local Government Code Section 43.063 requires a public hearing before City Council. The public hearing was held on March 2, 2020. The petition for annexation was presented before the Planning and Zoning Commission on February 6, 2020. The petition for annexation will subsequently go before City Council for final reading of the ordinance on April 20, 2020. Tract 7 is as follows:

Voluntary Annexation:

Tract 7 - 15.63 acres, more or less, located north Vidal Cantu Rd. and west of FM 1472/Mines Rd.

Petitioner: FM 1472 Investments - Kurt Kraus, Managing Partner

COMMITTEE RECOMMENDATION

Planning and Zoning Commission recommended approval of the annexation.

IMPACT ANALYSIS  
The financial implication is outlined in the Annexation Feasibility Analysis.

STAFF RECOMMENDATION
Planning and Zoning staff recommends approval of the initial zoning for the annexation.

M-1 (Light Manufacturing District):
The purpose of the M-1 Light Manufacturing District is to encourage the development of manufacturing and wholesale business establishments which are clean, quiet, and free of hazardous or objectionable elements such as noise, odor, dust, smoke or glare. Research activities are encouraged. This district is further designed to act as a transitional use between heavy industrial uses and other less intense and residential uses.

Is the initial zoning contrary to the established land use pattern?
No. The land to north, south, east, and west is currently unzoned. Annexation of this tract requires concurrent annexation of Annexation Tract 6.

Would the initial zoning create an isolated zoning district unrelated to surrounding districts?
No. The land to the north, south, east, and west is currently unzoned. Annexation of this tract requires concurrent annexation of Annexation Tract 6.

Will the initial zoning adversely influence living conditions in the neighborhood?
No. There are no residential neighborhoods in the vicinity.

Are there substantial reasons why the property cannot be used in accordance with existing zoning?
N/A

3. Solid Waste Collection: The collection and disposal of solid waste will be extended to the area within thirty days from the effective date of annexation on the same basis as other residential and institutional customers. Institutional, commercial, and industrial generators of solid waste may use city services or contract with private haulers. Disposal of all solid waste will be at the municipal sanitary landfill. Fees charged customers within the tract will be the same as all similarly classified customers.

4a. Operation and Maintenance of Public Water Services

4b. Operation and Maintenance of Public Wastewater Services:

6.  Operation and Maintenance of parks, playgrounds and swimming pools: No public parks, playgrounds, or swimming pools are presently located within the tract.

7.  Operation and Maintenance of other public facilities: No public facilities, public buildings, or other service facilities are presently located within the tract. All facilities required by the development shall be provided at the expense of the petitioner, its successors and assigns, or jointly in cooperation with the city at such time as warranted by the development.

The Service Plan does not contemplate the creation of another political subdivision, nor will it require the funding of capital improvements by the petitioner to which petitioner has not agreed prior to the institution of proceedings, or which will be charged in any manner inconsistent with Chapter 395 of the Texas Local Government Code. The Service Plan does not propose services in the area in a manner that would have the effect of reducing by more than a negligible amount the level of fire and police protection and emergency medical services provided within the corporate boundaries of the municipality before annexation.

If the annexed area had a lower level of services, infrastructure, and infrastructure maintenance than the level of services, infrastructure, and infrastructure maintenance provided within the corporate boundaries of the municipality before annexation, a service
plan must provide the annexed area with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the municipality with topography, land use, and population density similar to those reasonably contemplated or projected in the area.

Section 2. Capital Improvements
The tract does not require the construction or acquisition of capital improvements by the City. Petitioner agrees to provide all roadways, drainage, and all public improvements at such time as the property is platted.

Section 3. Land Use
When the annexation results in the abutment of residential uses with M-1 (Light Manufacturing District) as defined in the Laredo Land Development Code, a 100 ft. buffer yard between the different land uses shall be required, and the buffer yard shall be maintained by the property owner. This Section 3. Land Use shall survive the expiration of this agreement.

The Service Plan is valid for a period of ten years, and all services within the area shall be provided in accordance with the Plan. Should an ordinance pertaining to reserve areas or impact fees be adopted by the City Council, the ordinance shall supersede any provisions established herein.

SERVICE PLAN

A petition for annexation from City of Laredo was received for property designated as "Tract 8 (FM 1472 Investments # 3 Tract)" described by metes and bounds in Exhibit "A" of this Annexation Agreement and Service Plan and made part hereof for all purposes. This Service Plan was prepared in accordance with the requirements of Section 43.056 of the Texas Local Government Code and was available for review by the public at hearings duly held on March 2, 2020. Public notice of the hearings was provided on February 19, 2020 and February 21, 2020, not more than twenty or less than ten days before the hearings as provided in Section 43.0561 of the Texas Local Government Code.
Section 1. Services to be provided on the effective date of annexation

2. **Fire protection and Emergency Medical Services:** First response fire and EMS services will be provided to the area from Fire Station No. 9, which is located approximately 5.39 miles from the proposed site. Fire services include protection, prevention, and emergency medical response.

3. **Solid Waste Collection:** The collection and disposal of solid waste will be extended to the area within thirty days from the effective date of annexation on the same basis as other residential and institutional customers. Institutional, commercial, and industrial generators of solid waste may use city services or contract with private haulers. Disposal of all solid waste will be at the municipal sanitary landfill. Fees charged customers within the tract will be the same as all similarly classified customers.

4a. **Operation and Maintenance of Public Water Services**

   **RESIDENTIAL ANNEXATION FEE FOR WATER:**
   - Lots under 10,000 sqft: $1,039.46/lot (135 gpcd X 3.7 person/lot X $2.081/gal)
   - Lots over 10,000 sqft: $1,560.60/lot

   **COMMERCIAL/INDUSTRIAL ANNEXATION FEE FOR WATER:**
   - Less than 1.0 acres: $1,040.40/lot
   - Lots 1 acre and Fraction: $1,560.60/acre

   This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Water service will be to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Water for fire protection services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

4b. **Operation and Maintenance of Public Wastewater Services**

   **RESIDENTIAL ANNEXATION FEE FOR SANITARY SEWER:**
   - Lots under 10,000 sqft: $1,770.82/lot (100 gpcd X 3.7 person/lot X $4.786/gal)

More than 5.01 acres $1,560.60/acre

This fee is in addition to water availability or other fees but shall be superseded by the adoption and implementation of impact fees. Wastewater service will be provided to the customer at the same rates charged like customers within the City Limits. The City Charter and City Ordinance require that all line extensions be made at the expense of the developer to conform to City Standards. Wastewater services will be provided to the tract on the same basis and subject to the same requirements as all new development within City Limits.

5. Maintenance of roads and streets: Public roads and streets will be maintained on the effective date of the annexation in the same manner as all roads and streets within the city limits. All thoroughfare rights-of-way shall be dedicated to comply with the Long Range Thoroughfare requirements of the City of Laredo's Comprehensive Plan. Road maintenance consists of repair of paving, maintenance of traffic lights, controls and signals, and will be provided immediately upon annexation. Street lighting is required of all new development and will be provided at petitioner's expense.

6. Operation and Maintenance of parks, playgrounds and swimming pools: No public parks, playgrounds, or swimming pools are presently located within the tract.

7. Operation and Maintenance of other public facilities: No public facilities, public buildings, or other service facilities are presently located within the tract. All facilities required by the development shall be provided at the expense of the petitioner, its successors and assigns, or jointly in cooperation with the city at such time as warranted by the development.

The Service Plan does not contemplate the creation of another political subdivision, nor will it require the funding of capital improvements by the petitioner to which petitioner has not agreed prior to the institution of proceedings, or which will be charged in any manner inconsistent with Chapter 395 of the Texas Local Government Code. The Service Plan does not propose services in the area in a manner that would have the effect of reducing by more than a negligible amount the level of fire and police protection and emergency medical services provided within the corporate boundaries of the municipality before annexation.

If the annexed area had a lower level of services, infrastructure, and infrastructure maintenance than the level of services, infrastructure, and infrastructure maintenance provided within the corporate boundaries of the municipality before annexation, a service
plan must provide the annexed area with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the municipality with topography, land use, and population density similar to those reasonably contemplated or projected in the area.

Section 2. Capital Improvements
The tract does not require the construction or acquisition of capital improvements by the City. Petitioner agrees to provide all roadways, drainage, and all public improvements at such time as the property is platted.

Section 3. Land Use
When the annexation results in the abutment of residential uses with M-1 (Light Manufacturing District) as defined in the Laredo Land Development Code, a 100 ft. buffer yard between the different land uses shall be required, and the buffer yard shall be maintained by the property owner. This Section 3. Land Use shall survive the expiration of this agreement.

The Service Plan is valid for a period of ten years, and all services within the area shall be provided in accordance with the Plan. Should an ordinance pertaining to reserve areas or impact fees be adopted by the City Council, the ordinance shall supersede any provisions established herein.

STAFF RECOMMENDATION
Planning and Zoning staff recommends approval of the initial zoning of the annexation.

Planning and Zoning staff recommends approval of the annexation.

**M-1 (Light Manufacturing District):**
The purpose of the M-1 Light Manufacturing District is to encourage the development of manufacturing and wholesale business establishments which are clean, quiet, and free of hazardous or objectionable elements such as noise, odor, dust, smoke, or glare. Research activities are encouraged. This district is further designed to act as a transitional use between heavy industrial uses and other less intense residential uses.

**Is the initial zoning contrary to the established land use pattern?**

The Service Plan does not contemplate the creation of another political subdivision, nor will it require the funding of capital improvements by the petitioner to which petitioner has not agreed prior to the institution of proceedings, or which will be charged in any manner inconsistent with Chapter 395 of the Texas Local Government Code. The Service Plan does not propose services in the area in a manner that would have the effect of reducing by more than a negligible amount the level of fire and police protection and emergency medical services provided within the corporate boundaries of the municipality before annexation.

If the annexed area had a lower level of services, infrastructure, and infrastructure maintenance than the level of services, infrastructure, and infrastructure maintenance provided within the corporate boundaries of the municipality before annexation, a service
plan must provide the annexed area with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the municipality with topography, land use, and population density similar to those reasonably contemplated or projected in the area.

Section 2. Capital Improvements
The tract does not require the construction or acquisition of capital improvements by the City. Petitioner agrees to provide all roadways, drainage, and all public improvements at such time as the property is platted.

Section 3. Land Use
When the annexation results in the abutment of residential uses with M-1 (Light Manufacturing District) as defined in the Laredo Land Development Code, a 100 ft. buffer yard between the different land uses shall be required, and the buffer yard shall be maintained by the property owner. This Section 3. Land Use shall survive the expiration of this agreement.

The Service Plan is valid for a period of ten years, and all services within the area shall be provided in accordance with the Plan. Should an ordinance pertaining to reserve areas or impact fees be adopted by the City Council, the ordinance shall supersede any provisions established herein.

1.07 RENTAL OBLIGATION AND MODE OF PAYMENT:

A. Laredo International Airport

Architectural Design Guidelines

for the

Development of LAREDO INTERNATIONAL AIRPORT Properties
HISTORIC PERSPECTIVE

In 1755, Laredo, Texas, was a small ranching community on the Rio Grande river, similar in size to the townships in the original thirteen colonies. Eighty-one years later, Texas declared independence from Mexico, and Laredo became a major staging area for Santa Anna to launch his assault against the Alamo Mission one hundred fifty miles to the north in San Antonio de Bexar. When the Texans defeated Santa Anna in 1836 at the battle of San Jacinto near present day Houston, the Republic of Texas was formed. Laredo, however, remained under Mexican influence and declared its own independence in 1840 as the capital city of the new Republic of the Rio Grande, which included the Mexican states of Tamaulipas, Coahuila, and Nuevo Leon. In 1845, Laredo was annexed to the United States.

On May 7, 1942, the U.S. Government acquired from the City of Laredo approximately 2,085.43 acres for the construction of Laredo Army Air Corps Base. The main mission of the base was gunnery and gunnery maintenance training. The Government constructed runways and numerous facilities from 1942 to 1974. The base was initially deactivated in June 1947 and the base deeded to the City of Laredo. Subsequently on December 28, 1951 the base was leased to the government and it was reactivated as a result of the Korean conflict. In 1955 the City of Laredo deeded back to the U.S. Government the air base. The former air base was then deactivated in March 1974 during a period of base closings following the Vietnam War. Since then, the City of Laredo has operated the facility now known as the Laredo International Airport.

Approximately 309 acres were either deeded or sold to other federal, state, and county agencies or private firms. The remainder of the base was deeded to the City of Laredo by an Indenture Agreement dated February 1975.

Since 1975, the City of Laredo has embarked on major reconstruction and rehabilitation of the facilities acquired from the federal government. Runways have been reconstructed and numerous modern facilities constructed, such as a passenger terminal, cargo aprons and warehouses, hangars, etc. Truly, the Laredo International Airport is an airport in transition from military to civilian use, from light trainer aircraft to large/heavy civilian aircraft requiring improved pavement designs.

Centrally located and conveniently assessed landside (non-aeronautical) properties are being developed for medical and commercial uses. A medical campus anchored by Laredo Medical Center and the University of Texas Health Science Center San Antonio are helping to attract other medical related investments.
The City of Laredo's unrivaled status as an inland port has contributed to an ongoing experience of unprecedented growth, development and progress through the last decades and into the anticipated future. Consequent to this unprecedented progress the Laredo International Airport (and contiguous property available for development) now finds itself as the City of Laredo's geographic, demographic and commercial center. Landmark construction projects on airport property, such as the Laredo International Airport Terminal,

the Laredo Medical Center
have established new architectural standards not only for the Laredo International Airport properties but for our entire community and the region of South Texas as well.

The future is manifesting itself with new and ongoing opportunities and challenges for the Laredo International Airport as the Airport and the City continue to address themselves to the growing prosperity at hand. A challenge and a need are perceived calling for the establishment of guidelines to maintain the standards being set. In an effort not only to maintain but improve (when possible) these new architectural standards established for the airport and its properties to be developed and taking into account the impact of existing and future development on the community and the region, this document by establishing architectural design guidelines proposes to respond to the challenge and to address this need.

ARCHITECTURAL STYLE

The existing landmark buildings on the Laredo International Airport properties mentioned above have a great architectural significance for the Airport area. Additionally, they are significant for the entire Laredo community and our geographic region as well. Laredo, once perceived as being outside of the mainstream of Texas and the U.S., is now poised in the twenty-
first century as a bridge between the United States and Latin America. The opportunities for economic and inter-cultural commerce between the U. S. and the rest of North, Central and South as well as the globe, continue to increase, and the Laredo International Airport with its present and future developments continues to be a major influence. Consequently, the development of the Airport properties represents a major part Laredo's emergence as an international and inter-cultural center for the Americas and the rest of the world, and its design will be of significant importance to all impacted.

The architectural design of future developments must be a reflection of this broad community significance. While our twenty-first century can tempt designers to experiment with futuristic styles, it is critical that the future designs in this area contribute significantly to emphasize, maintain or improve the standards already set. This emphasis suggests that future design should reflect the origins and roots of our progressing culture, within a vocabulary that is drawn from the uniqueness of Laredo.

As the Laredo International Airport properties are developed through the twenty-first Century, it is anticipated that many architectural approaches may be represented. This is appropriate, and is representative of the way that most of the architecturally notable properties in the U. S. have evolved. It is very important, however, that all of the buildings on the airport lands be compatible, and that the designers of each building give considerable attention to the architecture of their predecessor buildings, and to the context of the overall architectural texture.

The existing landmark buildings on the Laredo International Airport properties will have a great influence on the quality and character of the remainder of the Airport properties to be developed. The style that exists in the standard setting existing buildings is one which reflects the character, spirit, history and climate of Laredo, but which does so with a vocabulary that is contemporary to the beginning of the twenty-first century. The style is derived from the Spanish, French and Mexican influences that have had a major influence on the culture of Laredo, with simple, light colored walls, recessed ornamented fenestrations, and sloped roofs. The light colored buildings sit on richly colored paving surfaces in a landscape which serves as an intimate oasis in the desert. The use of light and shadow to articulate the architectural form is important. Sanctuaries from the harsh sun and heat shape the buildings. Color is bold and prevalent, but is located within the recesses, out of the direct sun. Opportunities are maximized for crafted details and reflections of historic influences.

This is a direction for the design of future Airport properties which will provide a benchmark against which to measure the design of the future buildings.

ARCHITECTURAL GUIDELINES

Architectural design of future buildings at the airport properties shall consider the region's cultural and climatic forces. These architectural guidelines and general materials palette provide direction to meet this goal. While the guidelines are drawn from the historic influences on building in South Texas and northern Mexico, they are a point of departure for the creation of a twenty-first century development for Laredo, and not a suggestion for literal historic stylistic interpretations, which would be highly inappropriate.
Solar Control
When appropriate to program and budget parameters, covered walkways or loggias are to be included in building designs, to provide shaded walks and rest areas. These features are most important on any plaza and/or courtyard sides of the buildings. Building fenestrations will use deep overhangs, projecting cornices and/or deep-set windows for shading. Insulated glass with a high performance, low emission coating in conjunction with tinted glass will be used. Additionally, ornamental grillwork may be considered to further block direct solar heat gain at glazed openings.

Roofs
Roofs are to be low slope hipped roofs, a style that is common in the South Texas and northern Mexico architectural styles with Mediterranean influences. These roofs will add a great deal of character and color and will provide loft space for mechanical penthouses, offices, storage or other uses as the program of requirements may dictate. Mechanical equipment, even if roof mounted, is not to be visible from the ground or from any anticipated future buildings.

Flat terra cotta roofing tiles are the primary preferred roofing material. These tiles may be enhanced by the use of glazed tiles to create patterns and textures for additional architectural expression or interest. Concrete tile is inappropriate, due to fading and efflorescence over time. Barrel shaped clay tile is also inappropriate due to its identity with Southern California and tropical Latin America, neither of which is representative of Laredo.

Walls
The intense sun and sandy ochre color of the Laredo brush country inspire the use of materials which reflect light and are compatible with the color of the land. The predominant wall material should be face brick of an "FBS" (face brick standard) specification quality. Laredo has an established building tradition which uses sand faced bricks of Mexican origin. Similar materials are available today in Texas, in buff colored offerings which are of FBS Specification quality.

Sandstone, limestone and shellstone from Texas sources may be used as banding or for articulation around major doorways and windows in the tradition of either the Spanish "Plateresque" style or the French inspired state buildings of Monterey, Nuevo Leon, Mexico.

The more major buildings should consider use of stone, as budget parameters permit. A limited use granite such as black or deep green polished granite may appropriate for column or wall base locations. Granite with a non-skid finish may also be used as paving, sills, steps and curbing, as budget parameters permit.

Following the oldest of Spanish architectural traditions, the use of ceramic tile in complex geometric patterns is suggested on vertical surfaces under all loggias or porches. These fields of patterns and colors can also be used in major lobby or public spaces within buildings.

The site landscape architecture of the airport properties shall form the settings for buildings, whose individual architectural design may vary as the development evolves. To provide an effective setting for this architectural variety, it is important that the site design provide constancy through the life of the development.

Because Laredo's climate is moderate during most of the year, the heart of any site design is to be an oasis within which the building(s) sit, providing a pleasing outdoor environment for social interaction.
To unify the developments, it is important that site design elements be drawn from the same vocabulary as the buildings. To set the style for future designs, the architecture of the existing landmark buildings and the landscape architecture should be developed as an integral whole. The building architectural elements should be reflected in site construction elements, and the buildings should be designed to acknowledge possible plazas, courtyards and pedestrian ways that will provide a unifying structure.

Paved Surfaces
The plazas and courtyards are to provide a richly colored surface upon which light colored buildings sit. Appropriate paving materials will be brick which complements the building brick or stone, "Cantera" stone, exterior grade porcelain tile and the higher quality range of pre-cast concrete unit pavers. For walkways, minor plazas and courtyards, these materials may be used primarily as accents instead of field paving, with fields being concrete with sandblasted and exposed aggregate finishes. Special paving in roadways at pedestrian crossings, entries and other accent areas should be pre-cast concrete unit pavers, with patterns, colors and detailing to reflect plaza and courtyard paving treatments.

Site Structures
The site structures, such as gateways, fences, seat walls, sign walls, etc., are to reflect the architecture of the buildings to be designed. They should draw from the same Spanish, French and Mexican influences as the building architecture, and should reflect the same materials and detailing.

Site Furnishings
Outdoor seating with will be part of the hard-scape design should be designed predominantly with seat walls. The slope of the sites shall provide gradual, but measurable drops across buildings that will allow changes of grade to be taken up with low retaining walls. These walls should reflect the architectural detailing of the adjacent buildings, with caps at comfortable seating heights of 15 to 18 inches. Other necessary site furnishings, such as sign structures, trash receptacles, bicycle racks, etc., will be primarily catalog items, though these must be carefully selected to reflect the architectural style of the future designs.

Water Features
Within the exterior spaces, i.e. courtyards, fountains will be very important elements. Exterior spaces should have a fountain or water features (as long as they do not constitute an attractive nuisance), to the extent that budget parameters permit. The fountain mechanics should be simple, with submersible pumps for easy of maintenance. The desired effect is for fountains that provide a relaxing focal point, and a soothing background sound and not necessarily for fountain gymnastics.

PUBLIC ART

The use of "appropriate" public art in exterior settings is highly encouraged.

PLANT MATERIALS

The following representative list of plant materials when used may provides a "green" environment, rather than a desert landscape, with plant materials which are hardy in Laredo, have low or moderate water and maintenance requirements, and includes a high proportion of
xeriscape and native plants. The final plant palette should be compatible with these requirements, and with the plant materials on this list.

The following list of plants is presented in three categories:

1. **Green Zone** – the landscaping area closest to the building(s).
2. **Natural Buffer zone** – the landscaping area between the green zone and the margins of existing vegetation where appropriate.
3. **Xeriscape zone** – the landscaping area between the fringes of the natural buffer zone and the existing vegetation. This list includes only plants that are native to the existing area.

ORDINANCE NO. 2002-O-195

AMENDING ORDINANCE NO. 99-0-242 DATED AUGUST 23, 1999, ESTABLISHING AND ADOPTING COMMERCIAL AIRCRAFT LANDING FEES AND LANDING FEE RATES FOR THE LAREDO INTERNATIONAL AIRPORT, AS FOLLOWS:

AMENDING SECTION 2 TO INCLUDE A NON-SIGNATORY AIRLINE CATEGORY AND NON-SIGNATORY LANDING FEE OF $0.90 (NINETY CENTS) PER THOUSAND POUNDS; SECTION 5 IS DELETED; SECTION 6 IS AMENDED TO DELETE THE REQUIREMENT THAT THE AIRPORT FIRST INVOICE AIRLINE TO RECEIVE LANDING FEE PAYMENTS; SECTION 7 IS AMENDED SO AS TO NOT EXEMPT COMMERCIAL AIRLINES FROM PAYING A LANDING FEE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Airport Director recommends that the City Council approve the proposed commercial aircraft landing fees and landing fee rate ordinance, in furtherance of the development of the Laredo International Airport and as a support to the maintenance and operation of the Laredo International Airport.

WHEREAS, the Airport Advisory Board finds that said Ordinance is in the best interest of the Airport; and

WHEREAS, the City Council of the City of Laredo is of the same opinion.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF LAREDO THAT:

Section 1: Definitions:

"Laredo International Airport" or "Airport": That certain area administered by City of Laredo pursuant to Indenture from the United States of America to the City of Laredo, dated February 21, 1975, and consisting of all the area bounded by Saunders Street to the South, McPherson Avenue to the West, Lake Casa Blanca to the East and undeveloped land to the North, and being more particularly described in that certain Deed of Indenture filed in Volume 478 at page 471 of the Deed of Records of Webb County, Texas, this also includes the Airport Director.

Airline: Any provider of scheduled or non-scheduled air carrier service to include air feeder line, supplemental air carrier, charter service or air taxi service.

Commercial aircraft: Any aircraft operated either for passenger or cargo purposes on scheduled or non-scheduled flights, by a scheduled air carrier, an air feeder line, a supplemental air carrier, a charter service or an air taxi service.
"Maximum certificated gross landing weight" the maximum landing weight approved by the Federal Aviation Administration, or its successor in duties, for landing that aircraft at Airport.

"Fee Landings" (in the singular, or in the plural form) the actual landings of aircraft by the Airline at Airport, whether such be in revenue, or non-revenue service, except those which return to Airport prior to landing at another airport for weather, mechanical, or emergency reasons.

"Signatory Airlines" shall mean those airlines, including code sharing or affiliates of such airlines, providing Air Transportation to and from the Airport that have executed agreements with Airport.

Section 2: The Landing Fees shall be determined by multiplying the Land Fee Rate times the total number of thousand pounds of maximum certificated gross landing weight of Airline's aircraft making Fee Landings at Airport.

The Landing Fee Rate for Signatory Airlines shall be $0.60 (sixty cents) beginning on January 1, 2001 and will be so until this Ordinance is amended by City of Laredo.

The Landing Fee Rate for Non-Signatory Airlines shall be $0.90 (ninety cents) effective sixty (60) days from the date of the public hearing at which this Ordinance is approved and will be so until this Ordinance is amended by City of Laredo.

Section 3: Airline shall furnish to Airport on or before, the fifteenth (15th) day of each month, a written report, in a form approved by Airport, showing Airline's Fee Landings at Airport during the preceding month; such report shall include the number and the type of aircraft and the maximum certificated gross landing weight thereof and to include the net cargo landed and enplaned at Airport.

Section 4: Airline and ground Handling providers shall report to Airport on or before the fifteenth (15th) day of each month for the preceding month, a written report, showing the number of aircraft landings by types of aircraft, for which it provided ground handling services of any kind, to include Airlines which do not have written agreements with Airport to use the Airport, and the names and addresses of operators of such aircraft.

Section 5: On or before the tenth (10th) day following receipt of written report from Airline, Airport will transmit to Airline an invoice for Landing Fees due for the preceding month. Section 5 is deleted.

In addition, the Lessee proposes to furnish beautification improvements.

Uni-Trade Forwarding, L.C. is also a Foreign Trade Zone Operator since 2009 and is in good standing.

LESSOR is requesting to lease additional (22,394 square feet) land because its scope of the project requires additional space to fully develop and to be better prepared for future growth. The building design will be such that a portion or all of the building improvement can be converted to hangar space.

SUBJECT:
2020-O-022 Amending the Zoning Ordinance (Map) of the City of Laredo by rezoning approximate 9.3453 acres, out of Porcion 19, Joaquin Garcia, Original Grantee, Abstract 47, located at approximate 1,400 LF, South of Aquero Blvd., and East of Bernadette Ln., from AG (Agricultural District) to R-1B (Single Family High Density District); providing for publication and effective date.

ZC-75-2019
District VII

BACKGROUND:
Council District: VII – The Honorable George Altgelt

Proposed use: residential

Site: The site is currently raw undeveloped land.

Surrounding land uses: North, south, east and west of the property there is vacant undeveloped land.

Comprehensive Plan: The Future Land Use Map recognizes this area as Low and Medium Density Residential.

Transportation Plan: The Long Range Thoroughfare Plan does not identifies Aquero Blvd.

Letters sent to surrounding property owners: 2
In Favor: 0
Opposed: 0

STAFF COMMENTS:
Staff supports the proposed zone change and considers it appropriate at this location for the following reasons:

1. The proposed R-1B District is in conformance with the Comprehensive Plan’s designation of this area as Low and Medium Density Residential, that includes R-1B District.
2. The proposed zoning is compatible with residential uses in the area. There is an R-1B District abutting the property to the north.

P&Z RECOMMENDATION:
Planning & Zoning Commission in a 8 to 0 recommends approval of the zone change.

STAFF RECOMMENDATION:
Staff supports the proposed zone change.

IMPACT ANALYSIS

R-1B (Single Family High Density District): The purpose of the R-1B District (Single Family High Density District) is to provide for residential uses and those public uses normally considered an integral part of the residential neighborhood they serve. In addition, this district provides for the subdivision of single family residential lots with a minimum of 3,000 square feet.

Is this change contrary to the established land use pattern?
No. The existing uses along this area, are single family residential uses

Would this change create an isolated zoning district unrelated to surrounding districts?
No. The property abuts an R-1B zoning district to the north.

Will change adversely influence living conditions in the neighborhood?
No. The area is already residential use in nature.

Are there substantial reasons why the property cannot be used in accordance with the existing zoning?
No. The existing AG district allows for residential use, except not the lots size the applicant is seeking through an R-1B zoning district.

MOU between USCBP v. COL
MEMORANDUM OF UNDERSTANDING
BETWEEN
U.S. CUSTOMS AND BORDER PROTECTION
AND
THE CITY OF LAREDO
FOR
THE LAREDO DOWNTOWN BULKHEAD

PURPOSE:

This Memorandum of Understanding (MOU) is entered into by and between U.S. Customs and Border Protection (CBP) and the City of Laredo (The City) (collectively “the Parties”) for the purpose of establishing a mutual agreement governing the respective responsibilities of the Parties for the construction of the Laredo Downtown Bulkhead (Bulkhead), as described in Article 1 below.

SCOPE:

The Bulkhead will consist of a concrete retaining wall, not to exceed 18-ft in height, mass excavation on the river side of the concrete retaining wall and a dirt promenade on the land side of the concrete retaining wall. The upstream end of the Bulkhead will begin at approximately Santa Cleotilde Avenue and extend downstream to the downstream edge of the CBP Port of Entry #2 bridge (Project Area). The alignment of the Bulkhead will generally run parallel to that of the Rio Grande River and will be offset inland from the river based on CBP’s Hydrology & Hydraulic Analysis. The Bulkhead will transition to a 30-ft bollard wall system with anti-climb panels at the upstream and downstream terminus of the Bulkhead (See Exhibit A attached).

The concrete retaining wall will include an enforcement zone and associated infrastructure consisting of up to an 18-ft tall concrete retaining wall, a pedestrian railing, manual and mechanically operated gates, flood gates, patrol and maintenance all-weather road, lights and required technology which may vary based on given threats. Locations of all gates will be determined during the design process and based on the final Hydrology & Hydraulic Analysis. As a part of the project, CBP will place, compact, and hydro-seed the dirt promenade. No irrigation system(s) will be installed by CBP as a part of this project.

This project could include the removal of minor structures and obstructions within the determined alignment of the Bulkhead, vegetation clearing and drainage improvements. Relocation of any City owned utilities encountered within the alignment will be coordinated with the City.

RESPONSIBILITIES OF THE PARTIES:

A. Responsibilities of CBP
CBP will be responsible for the funding and construction of the Bulkhead.
CBP with the assistance of the U.S. Army Corps of Engineers (USACE) will conduct all necessary real estate, design, and environmental surveys of the lands needed for the project.
CBP with the assistance of USACE will conduct a fair market appraisal of the lands needed for the project. Upon appraisal of all lands needed, CBP will present an offer to sale to the City.
CBP will be responsible for maintaining the concrete retaining wall, maintenance road, patrol road, lighting and associated gates.
CBP agrees to continue ongoing communication with the City regarding any infrastructure that might be impacted by construction of the concrete retaining wall.
CBP will continue to communicate with the City throughout the design and construction of the project, including review of all design phase submittals.

B. Responsibilities of the City of Laredo

The City will sign a Right of Entry for Construction (ROE-C) for the area on the river side and land side of the Bulkhead noted as approximate grading limits, and associated bollard wall, as shown in the attached Exhibit A.
  - If the ROE-C is not provided by the City, prior to construction starting on the concrete retaining wall and associated bollard wall, CBP will not be able to construct the dirt promenade area. Construction for the concrete retaining wall is anticipated to commence once the contract has been awarded and CBP has received a signed ROE-C or has acquired all necessary real estate interests for the concrete retaining wall.

The dirt promenade on the land side of the concrete retaining wall will be the City’s responsibility for maintaining and landscaping.

Any landscaping on the river side of the retaining wall must be coordinated and approved by CBP to ensure vegetation does not hinder the ability of U.S. Border Patrol to secure and safely patrol the area.

The City shall provide an easement to CBP on the riverside of the concrete retaining wall for purposes of future maintenance by CBP.

The City shall provide CBP with utility requirements or design drawings showing where utilities are located along the project area.

The City shall continue to communicate with CBP throughout the design and construction of the project.

The City shall be responsible for the maintenance of all City owned utilities.

AMENDMENTS:

This is a living document and may be modified throughout the design & construction process. Should there be any changes or requested amendments it is up to each Party to propose.
such change to the other Party, so that it can be reviewed, and the MOU amended according to mutual agreement.

PREVIOUS COUNCIL ACTION

1/18/2011 – Council moved to amend the Citizen Participation Plan to adhere with the Consolidated Plan submission requirements as set by the U.S. Department of Housing and Urban Development (HUD) as a condition to receiving federal funds.

BACKGROUND

The City of Laredo is required to develop and submit a One Year Action Plan and a Five Year Consolidated Plan to the U.S. Department of Housing and Urban Development, which identify the housing and non-housing funding priorities of the community and the specific activities it plans to carry out with Community Development Block Grant (CDBG), HOME Investment Partnerships Program (HOME) and Emergency Solutions Grant (ESG). In developing these plans, the City must consult with local citizens, community service organizations, and others, as applicable, in order to assess community needs and to determine the best use of program funds.

In 1995, the City of Laredo prepared and adopted the Citizen Participation Plan which outlined how it would involve its citizens in the preparation of the plans. The City has taken all appropriate actions to encourage the participation of all of its citizens, and as such, will amend its Citizen Participation Plan to include specific language that states that the City will follow the process established in the Citizen Participation plan when feasible. In addition, the City is including additional specific language of the process that would be follow to encourage citizen participation in case of a local and/or national emergency where our current in person public meetings are unable to take place. The
amendments would allow for flexibility in the way public hearings, public meetings and other consultation can be done for the One Year Action Plan, Consolidated Plan and other HUD required plans and/or reports when current set processes are not feasible.

In case of a local or national emergency, the City will undertake other feasible steps to encourage citizen participation. These steps could include but are not subject to or limited to:

Mr. Chavez,

Enclosed is a breakdown of our fee proposal to provide architectural / engineering design services and financial consulting services to the City of Laredo Community Development / Municipal Housing program. Our scope, as defined by Community Development administrators, is to design an undetermined number of residential units with commercial and administrative spaces, and with the potential for adding square footage, to make the project financially feasible and successful in obtaining Section 103 loan funds from the Department of Housing and Urban Development.

DETAILED SCOPE:
SAA, Inc. will provide architectural, engineering and specialized consultant services that include, but are not limited to the following:

- Phase I - development of a preliminary architectural building assessment, a program of requirements, building history, building components assessment, building architectural survey and 3D Modeling, civil site survey, general proposed schematics – floor plan options, preparation and assistance with the City’s Community Development’s staff of the general application of HUD’s Section 108 Loan Package to secure project financing and viability with assistance from our team financial consultants. The team will perform studies and recommendations for the present building overall structure, roof, walls, floors, and mechanical electrical and plumbing systems. SAA, Inc. will explore a possible expansion of the present footprint through schematics to develop options for consideration in generating additional revenue and increase downtown affordable housing units in unison with the developed City master plan.

- Phase II – Texas Historical Commission (THC) technical reviews, research, correspondence, and securing required approval, GSA’s technical reviews, research,
noise assessment, abatement report and securing required approval, environmental materials / lead paint abatement recommendations implementation (assessment report by Owner per our notes), site and utility civil surveys, new architectural and engineering design, a building structural assessment with recommendations, preparation of the new schematic design. SAA, Inc. will explore a possible expansion of the present footprint through schematics (one or two schemes) to develop options for consideration.

- Phase III: Financial consultants begin pro-forma studies and assistance with loan application package to the Department of Housing and Urban Development (HUD), project initial draft review by HUD staff and return for modifications/clarifications.
- Phase IV: Design Development, final cost estimate approval, approval from City staff and mid-way review by Texas Historical Commission. Development of an operational plan. Financing plan total loan application submitted to HUD.

INFORMATION TO CONTRACTORS

PROJECT: Jose & Alicia Garza Park Basketball Metal Shade

The Contractor's attention is directed to Special Provision 000-6233, "Important Notice to Contractors", and "Statement of Materials and Other Charges" which will be included in all projects, beginning with the September, 1991 letting. These establish the procedures whereby the Contractor will be permitted to obtain an exemption from the sales tax on certain materials. See Comptroller's Rule 3.291 and Texas Tax Code, Chapter 151, as amended by House Bill Number 11, acts 1991, 72nd Legislature, First Called Session. The Contractor will be required to separate the charges for materials from all other charges. Also the Contractor must issue resale certificates to suppliers. Sales tax permit applications and information regarding resale certificates may be obtained by calling the State Comptrollers' toll fee number 1-800-252-5555.
SPECIAL PROVISION
No. 000-6233
IMPORTANT NOTICE TO CONTRACTORS

The Contractor’s attention is directed to Rule 3.291, paragraphs (a) (1), defining separated contracts, subsection (b) (3) discussing separated contracts, and subsection (c) discussing exempt contracts. Reference: Texas Tax Code, Chapter 151.

Contractors should note those organizations in subsection (c) that the rule shows as being exempt no longer qualify for the exemption. The rule states that contractors improving realty for organizations listed in Texas Tax Code 151.309 and 151.310 are exempt from tax. THIS IS NO LONGER TRUE EFFECTIVE WITH CONTRACTS SIGNED ON OR AFTER AUGUST 15, 1991.

Only those contracts with school districts and nonprofit hospitals qualify for the exemption discussed in subsection (c) of Rule 3.291.

The Comptroller is amending the rule to reflect this change.

If the low bidder elects to operate under a separated contract as defined by Rule 3.291, by obtaining the necessary permits from the State Comptroller’s office allowing the purchase of materials for incorporation in this project without having to pay the Limited Sales and Use Tax at the time of purchase, the low bidder shall identify separately from all other charges the total agreed contract price for materials incorporated into the project. This form shall be filled out by the low bidder in each of the two bound copies of the contract. Total materials shall only include materials physically incorporated into the realty.

In order to comply with the requirements of Rule 3.291, as mentioned above, it will be necessary for the Contractor to obtain a sales tax permit.

It will also be necessary that the contractor issue resale certificates to his suppliers.

Sales tax application for a sales tax permit and information regarding resale certificates may be obtained by writing to:

Comptroller of Public Accounts
Capital Station
Austin, Texas 78774

The Contractor may also receive information or request sales tax permit applications by calling the State Comptroller’s toll free number 1-800-252-5555.

Subcontractors are eligible for sales tax exemption if the subcontract is made in such manner that the charges for materials is separated from all other charges. The procedure described above will effect a satisfactory separation. When subcontractors are handled in this manner, the Contractor must issue a resale certificate to the subcontractor and the subcontractor, in turn, must issue a resale certificate to his supplier.

Re: Bid review for Fasken Community Center Pool & Amenities Project

Gloria,

Per your request, we have reviewed the bid information submitted for this project. Please be reminded that the Architect can advise and consult with the Owner, but is not responsible if the Contractor fails to perform the Work in accordance with the requirements of the Contract Documents.

There were 6 total bids submitted for this project (refer to attached bid tabulations), of which **ABBA Construction** was the lowest bidder with a base bid of $1,362,000. The second lowest bidder was **Summit Building & Design** with a base bid of $1,599,000.00. The third lowest bidder is **Celso Gonzalez**, with a base bid of $1,690,856.11.

In review of the information, **ABBA Construction** submitted the required documents and listed three recent projects, with construction costs ranging from $400K to $950K. No further projects nor references were provided. The information that was obtained from speaking with references associated with the listed jobs regarding their past performance in meeting deadlines and following standard protocol was not favorable.

Both **Summit Building & Design** and **Celso Gonzalez**, also submitted the required information including a long list of past projects with construction costs ranging from $1 million to $5 million. In addition, they each provided an extensive list of references from clients, architects, and bond and trade references.

Should the construction of the pool facility (Deduct Alternate #2), be removed from the construction contract due to insufficient funding, then the base bid amount minus Deduct Alternate #2 should be reviewed. Per the table shown below, **ABBA Construction** remains the lowest bidder and **Celso Gonzalez** becomes the second lowest bidder.

**ABBA Construction** provided the apparent low bid. However, per the information gathered regarding past performance, it appears that **Summit Building & Design** and **Celso Gonzalez** are better qualified.

Re: Bid review for Fasken Community Center Pool & Amenities Project

Gloria,

Per your request, we have reviewed the bid information submitted for this project. Please be reminded that the Architect can advise and consult with the Owner, but is not responsible if the Contractor fails to perform the Work in accordance with the requirements of the Contract Documents.

There were 6 total bids submitted for this project (refer to attached bid tabulations), of which ABBA Construction was the lowest bidder with a base bid of $1,362,000.00. The second lowest bidder was Summit Building & Design with a base bid of $1,599,000.00. The third lowest bidder is Celso Gonzalez, with a base bid of $1,690,856.11.

In review of the information, ABBA Construction submitted the required documents and listed three recent projects, with construction costs ranging from $400K to $950K. No further projects nor references were provided. The information that was obtained from speaking with references associated with the listed jobs regarding their past performance in meeting deadlines and following standard protocol was not favorable.

Both Summit Building & Design and Celso Gonzalez also submitted the required information including a long list of past projects with construction costs ranging from $1 million to $5 million. In addition, they each provided an extensive list of references from clients, architects, and bond and trade references.

Should the construction of the pool facility (Deduct Alternate #2), be removed from the construction contract due to insufficient funding, then the base bid amount minus Deduct Alternate #2 should be reviewed. Per the table shown below, ABBA Construction remains the lowest bidder and Celso Gonzalez becomes the second lowest bidder.

ABBA Construction provided the apparent low bid. However, per the information gathered regarding past performance, it appears that Summit Building & Design and Celso Gonzalez are better qualified.

Respectfully,

PREVIOUS COUNCIL ACTION

BACKGROUND
The urgency of these items is that on March 13, 2020, the Governor of the State of Texas declared a state of disaster and the President of the United States of America declared a national emergency in relation to COVID-19. On March 14, the President of the United States held an additional press conference relating to COVID-19, and on March 15, 2020, the CDC issued additional guidance in relation to the same. On March 16, 2020, the Mayor of the City of Laredo issued a local emergency declaration. Due to the rapidly evolving nature of the disease and emerging federal and state guidance, it is necessary that the City Council of Laredo consider and take action on emergency ordinances.

As a direct result of the City of Laredo's Declaration of Local Disaster for Public Health Emergency (COVID-19 crisis) issued and further extended at Emergency City Council Meetings of March 13th and March 17th, 2020, the City of Laredo has issued, incurred and accumulated expenditures surpassing $50,000.00 for commodities and services from various vendors.

Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided, https://www.ethics.state.tx.us/tec/1295-Info.htm.

Implementation of House Bill 1296

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission’s website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission’s filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

FINANCIAL IMPACT:
The purpose of this contract is to establish prices for the commodities or services needed should the City need to purchase these commodities or services. The City's obligation for performance of an annual supply contract beyond the current fiscal year is contingent upon the availability of appropriated funds from which payments for the contract purchases can be made. If no funds are appropriated and budgeted during the next fiscal year, this contract becomes null and void.

Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided, https://www.ethics.state.tx.us/fec/1295-Info.htm

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. The disclosure requirement applies to a contract entered into on or after January 1, 2015.

31.0  Tab F – Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided, 

Implementation of House Bill 1295

31.1  Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement the law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission’s website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

31.2  Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission’s filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

1 Question 11. Conflict of Interest Questionnaire (CIQ)
Chapter 176 of the Local Government Code requires contractor and vendors to submit a Conflict of Interest Form (CIQ) to the Office the of City Secretary.
I have acknowledge that I have been advised
Certificate of Interested Parties (Form 1295)

In an effort to comply with state law, the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided, https://www.ethics.state.tx.us/sec/1295-Info.htm.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission’s filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided, https://www.ethics.state.tx.us/lec/1295-Info.htm.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission’s website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission’s filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

Bid Attributes

1. Question 11. Conflict of Interest Questionnaire (CIQ)
Chapter 176 of the Local Government Code requires contractor and vendors to submit a Conflict of Interest Form (CIQ) to the Office of the City Secretary
I have acknowledge that I have been advised
Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided, https://www.ethics.state.tx.us/tsc/1295-Info.htm.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission’s website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission’s filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

Additional Information.

Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided, https://www.ethics.state.tx.us/sec/1295-Info.htm.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission’s website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission’s filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided https://www.ethics.state.tx.us/tec/1295-Info.htm.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295).

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission’s website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission’s filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

The needs of the City shall govern the amount that is purchased. All annual contracts shall be renewed on the anniversary date of the original term or renewal term. The contract may be renewed month to month until a new contract is executed. The City’s obligation for performance of an annual supply contract beyond the current fiscal year is contingent upon the availability of appropriated funds from which payments for the contract purchases can be made. Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided https://www.ethics.state.tx.us/tec1295-info.htm.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2262.006 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission’s website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission’s filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

26.2 Some approved method of keeping the gasket from galling to the nut when tightening the nut to the desired torque.

26.3 An approved method of keeping the gasket from loading directly into the threads on the inside of the nut which can cause damage to the gasket, resulting in future leaks. This consists of a gasket iron dry coating such as Teflon or equal.

26.4 An approved method of keeping the gasket from being allowed to cold flow between the pipe and the fitting when the gasket is under a compression load.

26.5 An approved method of controlling the amount of torque required to obtain proper compression of the gasket to assure it is not over or under compressed. This should consist of a stop shoulder on the body of the fitting or another approved method, but should not include the use of a torque wrench.

26.6 An approved feature that assures high pull out strength that does not require a separate operation other than to tighten the compression nut.

Attention: William “Shew” Lim, P.E.

Subject: Creek Erosion Control Project Bid Results and Recommendations

Black & Veatch has reviewed the bid information for the three lowest bidders, ABBA Construction, Azar Services, and Romo Contractors, for the Creek Erosion Control Project Near Station 312+81. The bids have been reviewed for completeness of documentation provided, detail of information provided, and costs compared to the Engineers Opinion of Probable Construction Cost (EOPCC). Black & Veatch has updated our EOPCC to include the design revisions implemented by addendum no. 1 during the bid phase. Our final EOPCC is $250,464.00. The bid information for the highest bidder, ERS of MS, INC., was not reviewed due to its cost being significantly higher than the other bidders.

Romo Contractors:
Romo Contractors was the lowest bidder on this project with a bid total of $168,000. The following is a review of their submitted bid information:

1. Completeness of Bid Information:
   a. Statement of Materials and other Charges provided.
   b. Proposal (Section A-5) was submitted and signed.
   c. Bid bond submitted as a Cashier’s Check.
   d. Bid form was completed and signed.
   e. Addendum No. 1 was acknowledged.

2. Information from Bidder:
   a. Similar projects appear to be in line with current project and occurred within the past 5 years.
   b. The named superintendent only has two years of experience with Romo Contractors, of which all the projects listed are renovation/remodeling type projects for either residential or commercial properties. The superintendent is not listing any of the referenced projects provided by the Contractor within his resume.
   c. They indicate that the progress schedule is attached, but nothing was provided. Obtaining a progress schedule would be a requirement before starting construction to confirm that the contractor can complete the project in the allotted timeframe.
   d. Contractor just lists basic equipment that will be utilized during construction, missing type, capacity, age. This may be acceptable for this project.
   e. Contractor listed a sub-contractor that will be utilized but did not list the manufacturers of proposed materials.

3. Cost Comparison:
   a. The Basis of Bid cost form was completed correctly and is the apparent low bidder.
   b. The bidder was about $90,500 less than the updated EOPCC or about 36% lower
Azar Services, LLC:
Azar Services, LLC was the second lowest bidder on this project with a bid total of $236,300. The following is a review of their submitted bid information:

1. Completeness of Bid Information:
   a. Statement of Materials and other Charges provided.
   b. Proposal (Section A-5) was submitted and signed.
   c. Bid bond submitted on separate bid bond form provided by an Oklahoma Surety Company with required seals. There is no amount indicated just “Five percent of the greatest amount bid (5% G.A.B)” Checklist for Bidders specifically asks for the surety company to be qualified and licensed by the State of Texas. This surety is from Oklahoma, further evaluation would be required to determine if they are licensed in Texas.
   d. Bid form was incomplete. This is a major piece of the proposal and with it missing, would potentially be cause for rejection of bid.
   e. Addendum No. 1 was acknowledged.

2. Information from Bidder:
   a. Similar projects appear to be in line with current project, although two are currently active. This could lead to potential limitations with labor/staff.
   b. Minimal experience record for superintendent.
   c. No proposed progress schedule provided. Obtaining a progress schedule would be a requirement before starting construction.
   d. Equipment data provided should be acceptable for this project.
   e. No sub-contractors provided. No sources and manufacturers of proposed materials were provided.

3. Cost Comparison:
   a. The Basis of Bid cost form was completed correctly.
   b. The bidder was about $14,000 less than the EOPCC or about 6% lower.

ABBA Construction:
ABBA Construction was the third lowest bidder on this project with a bid total of $264,818. The following is a review of their submitted bid information:

1. Completeness of Bid Information:
   a. Statement of Materials and other Charges provided.
   b. Proposal (Section A-5) was submitted and signed.
   c. Bid bond provided by RLI Insurance Company an Illinois Surety Company with required seals. There is no amount indicated just “Five percent of amount bid” Checklist for Bidders specifically asks for the surety company to be qualified and licensed by the State of Texas. This surety is from Illinois, further evaluation would be required to determine if they are licensed in Texas.
   d. Bid form was completed and signed.
   e. Addendum No. 1 was acknowledged.
2. Information from Bidder:
   a. Similar projects appear to be in line with current project and occurred within the past 5 years. Multiple other projects were provided in addition, which also provide relevant experience.
   b. Experience records given for president and project manager were satisfactory, showing at least 10 years of experience within the industry.
   c. Proposed progress schedule provided completing the work within the anticipated duration.
   d. Equipment data table provided with all requested information.
   e. Subcontractors, sources and manufactures of proposed materials were provided.

3. Cost Comparison:
   a. The Basis of Bid cost form was completed correctly.
   b. The bidder was about $10,400 more than the EOPCC or about 4% higher.

**Recommendation:**
Based on the documentation provided by Romo Contractor’s, they provided most of the relevant documentation. They forgot to attach a project schedule, so it would be imperative to have them provide this prior to the council meeting to ensure that they can complete the project within the contract duration. Their superintendent doesn’t have many years of experience with Romo Contractors, which could be problematic for him to manage the project. This would just require additional attention and monitoring in the field with a local inspector. The other concern is how significantly low their bid was in relation to Black & Veatch’s revised EOPCC and the next bidders in line. This potentially may be from them not incorporating the necessary materials/equipment to perform the tasks at hand or they may have a better understanding of how to construct the project in a more efficient manner.

Black & Veatch believes that Romo Contractor’s is a satisfactory selection to complete this project with close supervision and by monitoring the schedule for the duration of the project.

If you have any additional questions, please let me know.

Very truly yours,
BLACK & VEATCH CORPORATION
